CLASS SCHEDULES COMPLETED FOR NIGHT SCHOOL

First Session to Be Held Monday; No Examination Needed to Enter

Night school opens Monday at Glendale Union High school. "All who desire to enroll in any subject will please take note of the program and go to the room in which the class is given," said Principal A. J. Ferguson, this morning. "If this schedule is followed carefully, it will save confusion. Anyone who desires further information or who wishes to make a request for a subject not listed in the course may do so by signing a request for the subject in Room 24, students' office, Administration building."

The schedules of classes and the hour of their meeting is listed below:

Monday, 7 p. m.—Elementary Spanish, room 304; English, room 305; mechanical drawing, room 225; young men's gym class, boys' gymnasium.

Monday, 8 p. m.—Advanced Spanish, room 304; mathematics, room 305; mechanical drawing, room 224; young men's gym class, boys' gymnasium.

Tuesday, 7 p. m.—Short-hand, room 126; bookkeeping, room 129; auto shop, room 208; wood-working, room 205; machine shop, room 215; millinery, room 141; sewing and dress making, room 141; business men's gym class, boys' gymnasium; ladies' gym class, girls' gymnasium.

Tuesday, 8 p. m.—Typing, room 125; penmanship, room 120; auto shop, room 208; wood-working, room 205; machine shop, room 215; millinery, room 141; sewing and dress making, room 141; business men's gym class, boys' gymnasium; ladies' gym class, girls' gymnasium.

No tuition fee is charged for enrollment in these courses. The only expense is for books and materials actually used. No examination is required for entrance and there is no requirement of previous schooling.

ROGERS HORNSBY TAKES LEAD IN HOME RUN SWATS
NEW YORK, Sept. 23.—Rogers Hornsby, second baseman for the Cardinals, took the lead in home run honors this afternoon when he smashed out his fortieth home run of the season in the sixth inning of the game against the Giants. Scott was pitching at the time. No one was on base.

MANY INDICTMENTS IN HERRIN MINE MASSACRE
MARION, Ill., Sept. 23.—The special grand jury investigating the Herring massacre of last June in which twenty-two were slain in rioting during the coal strike returned forty-two indictments for murder today. The jury in completing its work also handed down fifty-eight indictments for conspiracy to commit murder; fifty-eight indictments for rioting and fifty-four indictments for assault with intent to murder.

PIRATES ELIMINATED AS PENNANT POSSIBILITY
NEW YORK, Sept. 23.—The Pirates were practically eliminated as a pennant possibility this afternoon when they lost the first game of the double-header to Brooklyn 5 to 6. The Dodgers clinched the game when they scored six runs in the seventh and drove Glazner back to the leading Giants. The "batteries" Glazner, Carlson and Schmidt; Reuther and Hungling.

DRAMA SECTION'S WORK OUTLINED

First Session of Season Will Be Held at the Home of Mrs. Chase

The work of the drama section of the Tuesday Afternoon club, which will hold its first meeting of the season on Friday, October 6, at the home of the curator, Mrs. R. E. Chase, 239 North Orange street, has been outlined for the year and includes some very interesting new plays, as well as reviews of the Broadway successes of the past season. For the opening program of the section, Mrs. Chase will read several one-act plays. As the members of the drama section are to give a one-act play at the Society Circus and Bazaar at the Tuesday Afternoon club early in November the month of October promises to be a busy one for them.

The programs of the drama section for the year will include the reading and discussion of Schiller's "Mary Stuart," "Will Shakespeare" by Clemence Dane, the English playwright, "Pelleas and Melisande" by Maeterlinck, and "The Scutcheon" by Browning. "Plays of 1921-1922" by Burns Mantel which is a resume of all of the New York successes for the year. A play by Pinerio will also be studied. Several blank dates during the year have been left for review of some of the newer Broadway successes and also for the study of new material which appears in the drama and theatrical magazines.

In New Clubhouses
In addition to the program to be given by the drama section at the Society Circus, the members of this section and the music section are planning to give the opening program of the Tuesday Afternoon club in the new clubhouse at Lexington drive and Central avenue, which will take place some time in January.

The drama section meets the first and third Fridays of each month at the homes of members of the section. After the completion of the new clubhouse the section meetings will be held there.

First Band Concert Is Complete Success

The first weekly public band concert given last night by the Glendale Elks' band in front of the city hall building was indeed a success, both from the standpoint of quality of music rendered and also the appreciative audience attending. The members of this musical organization, which numbers over thirty, have been practicing diligently some weeks under the direction of R. E. Kenny, with C. M. Burke as manager, and announcement of their appearance is always greeted with enthusiasm.

It is planned to have the second weekly public band concert next Friday night in the vicinity of Broadway and Brand boulevard. These concerts have been made possible only through the cooperation of the city administration and the Glendale merchants, both of whom are sharing the expenses of the band.

ALL BUSINESS STOPS
WASHINGTON, Sept. 23.—Complete cessation of business in Constantinople as a result of the political and military "chaos" was reported to Secretary of Commerce Hoover by American Trade Commissioner Gillespie.

PREPARE PROGRAM FOR DEDICATION BY CATHOLICS

Solemn Vespers at 4 o'Clock Sunday; Banquet Later at Glen Inn

Solema vespers commencing at 4 o'clock tomorrow afternoon will formally dedicate the new Holy Family Catholic church to the worship of God.

The Right Reverend John Joseph Cantwell will officiate. He is bishop of the diocese of Los Angeles.

The banquet at the Glen Inn at 6 o'clock will be well attended, according to report. Over 250 reservations have been made by families of the Holy Family parish and by representatives of various civic and religious organizations of Glendale.

The banquet will be served by the catering staff at the Glen Inn. Individual club tenderloin steaks will be the piece de resistance. The first course, will be California grape fruit. The entrée will be New Orleans corn custard with fried mushrooms in butter, accompanied by a baked potato. The salad will be lettuce with Thousand Island dressing. The dessert will be apple pie, ice cream or sherbet, following by coffee.

Musical Program
During the banquet a select program of vocal and instrumental music will be given by a quintette consisting of William G. Bode, saxophone; Julius Bierlich, violin; Louis Apid, violoncello; Albert G. Gardner, bass-viol, and Herbert G. Henning, piano, Edwin J. Albright, chancelor-elect of the Glendale council, Knights of Columbus, will sing a solo, and Wilbur Herwig, tenor-soloist for twelve years at the cathedral in Philadelphia. Miss Viola Yorba and Mr. and Mrs. Harry Girard will have parts in the vocal program.

John Steven McGrorty, author of "The Mission Play," will preside as toastmaster. Judge Paul J. McCormick and Joseph Scott will be the speakers of the occasion.

The program is as follows:
Overture—"Mille Modiste"
Victor Herbert
"Cavatina" Joaquin Raff
Two Hungarian Dances.....
D. Brahms
Edwin J. Albright will sing "Oliver King's" "Israel."
Wilbur Herwig will sing "Adieu Marie," by John Adams, and composed by Wilfred Sanderson.
"Until" by Wilfred Sanderson.
Miss Viola Yorba will sing "La Paloma," by request, accompanied by the orchestra.
Mrs. Harry Girard will sing a new song entitled "So-tu-San," from manuscript written and composed by Harry Girard, with saxophone obligato by William G. Bode.

Wilbur Herwig and Harry Girard will sing "El Forza del Destino," a duet for tenor and baritone, by G. Verdi.
Mrs. Girard and Mr. Herwig will sing by request the duet from "Il Trovatore" by Verdi entitled "La Miserere."

Knights of Pythias to Be Party Hosts

Invitations have just been mailed out by Glendale Lodge, Number 331, Knights of Pythias, to members to spend a social evening at the hall, corner Brand boulevard and Park avenue, on Thursday, September 23.

Dancing, cards and refreshments are to be the order of the evening. It is announced.

As the affair is to be complimentary, the committee in charge have notified the members to get additional invitations from the committee for friends and relatives.

The committee is composed of the following: G. H. King, E. S. Melzer, M. J. Edwards.

R. L. McCourt Home Is Scene of Party

Mr. and Mrs. R. L. McCourt of 324 North Central avenue entertained with an informal party at their home last night in honor of L. G. Sherman of 316 West Lexington drive. A delicious buffet supper was served at 7 o'clock and was followed by a social evening and dancing. The guests included Mr. and Mrs. L. G. Sherman, Mr. and Mrs. Harry Lockwood, Mr. and Mrs. W. E. Evans, Mr. and Mrs. W. R. Newport, Dr. E. Kenny, and Mrs. H. Boyer and the host and hostess.

Mr. and Mrs. Brucker at Home From Trip

Mr. and Mrs. S. Brucker, of 221 East Acacia avenue, returned recently from a three months' visit in Missouri, Indiana and Michigan. Mr. and Mrs. Brucker came to Glendale three years ago from Missouri, and their return to Indiana was after an absence of over twenty-five years.

In Indiana they visited relatives and friends in Kentland, Winamac and South Bend. Then they went to Michigan to visit in Lansing and en route west they spent a week in Salt Lake City, Utah.

RICHMOND P. HOBSON, one of the heroes of the Spanish-American war, who will make an address at the Glendale Chamber of Commerce monthly night meeting and dinner next Tuesday.

ARRANGE DETAILS FOR C. OF C. MEET

Full Program for Dinner to Be Given on Next Tuesday Night

A number of reservations are being received at the Glendale Chamber of Commerce for the monthly night meeting and dinner which is to be held Tuesday night at 6:30 o'clock.

Captain Richmond P. Hobson is to be the guest of honor. He is to speak on "The Scientific Extension of Education as Applied to Commercial Problems."

A delegation of Spanish-American War veterans will welcome Captain Hobson, while a committee of women from the Tuesday Afternoon Club will give a reception at 6:15 for Mrs. Hobson.

Captain Hobson is well known as the hero of the Merrimac, and having also been interested in national politics. Captain Hobson is also known as a "dry" leader. Those desiring to attend the dinner are being urged to secure their reservations by Monday noon if possible, according to E. F. Sanders of the chamber.

Program of Meeting
According to program which has just been prepared by the Chamber of Commerce, the following is an outline of what will take place:
The meeting will open by all singing "America," the singing being led by Francis J. W. Henry. Rev. E. E. Ford is to pronounce the invocation, after which the dinner will follow.
Dr. Jessie A. Russell, chairman of the civic committee of the Chamber of Commerce, is to speak on "Our Sewer Problem." Dr. Russell will outline the proposed plan as presented to the city council at their last meeting.
President V. M. Hollister of the chamber will give a short address, his subject being, "Our New Members."

A contra solo is to be rendered by Mrs. Helen E. MacMullin.
Captain Hobson will then be introduced by Mattison B. Jones, and will then deliver the address of the evening.
The meeting will close by the singing of "Star Spangled Banner," led by Francis J. W. Henry. It is to be one of the really big meetings of the year, according to chamber officials.

Miss Laura Chudley Weds Ray Peirson

Dr. C. M. Crist officiated at the wedding of Miss Laura Chudley and Ray H. Peirson, which took place today, Saturday, September 23, 1922, at the First Methodist church, 144 North Kenwood street.

Miss Chudley is the daughter of Mr. and Mrs. John Chudley of 908 East Elk street. Mr. Peirson is from the state of Oregon.

KILLED BY EXPLOSION

COPENHAGEN, Sept. 23.—Nearly all the members of the crew of the Alanshaf lightship were killed today when the lightship was blown up by a floating mine.

Watch Your Steps! Count Your Steps! Send Your Steps!

Have you stepped off the distance to your favorite merchant as yet?
It is known that many readers of The Glendale Evening News are saving Thursday's paper with the idea of doing this little trick sometime today or tomorrow when they are down town.

Really, folks, there is no guess work about this, for all you have to do is take a good, rangy stride, such as V. M. Hollister has, and find out for yourself how far each of the twenty-seven different business houses are from the fire hydrant in front of the Security Trust & Savings bank.

Watch your count, as well as your step, in order that the scorekeeper of this event will not have much figuring to do. Remember, the one giving the figures nearest Mr. Hollister's count gets \$15 in cash from the Glendale branch of the Security bank. Nearly \$100 in other awards are offered.

SEWAGE QUESTION IS DISCUSSED BY KIWANIS CLUB

Connection With Proposed Los Angeles Plant Is Under Consideration

The Broadway Inn, yesterday noon was the scene of the weekly luncheon of the Glendale Kiwanis club.

The session was in the nature of a business meeting and a large part of the discussion was relative to the "functioning" of various committees in the activities of the organization.

Mayor Spencer Robinson and E. F. Sanders, assistant secretary of the Glendale Chamber of Commerce, both spoke briefly upon the local sewer problem.

"Sewage is the most important question that Glendale has to consider, and probably will have for some time to come," remarked Mr. Sanders. He spoke of the research work done by the Federated Improvement association, and said that it seemed a waste of energy to duplicate it. He also recommended that every member of the club should review the report recently made on the sewage problem by John A. Griffin, city engineer for Los Angeles.

City May Connect
According to Mayor Spencer Robinson, the chances that Glendale will be permitted to connect with the Los Angeles outfall sewer system, when the trunk line is extended toward the San Fernando valley, are very good. He stated that he did not believe that annexation to Los Angeles would be necessary. Mayor Robinson implied that he was very much opposed to annexation.

One reason why Los Angeles will be favorably disposed towards allowing Glendale to join its sewer system, according to Mayor Robinson, is because of fear that seepage from the cesspools on the west side of Glendale may pollute the Los Angeles river and so cause typhoid in Los Angeles.

E. P. Hayward, realtor, of 142 South Brand boulevard, expressed an opinion that the club could accomplish much good in an educational way by helping to get the public acquainted with the facts of the case. He said that, even though the Federated Improvement association was doing good work, there will still be important work to be done on the subject by the Kiwanis club.

The snap and vigor of the meeting was the source of many comments. (Continued on Page 14)

METHODIST MEN MEET AT BANQUET

Dr. Harcourt W. Peck Gives Address on 'Evangelism'; Watermelon Feast

The men of the First Methodist church enjoyed a pleasant and profitable program at their 45th meeting last night, at which Dr. Harcourt W. Peck of Long Beach gave an address on "Evangelism." The banquet at 6:20 o'clock was in charge of W. A. Webber and C. E. Russell and concluded with 140 pounds of Klondike watermelons.

A spirited song service was led by Dr. R. W. Mottern and included such well-known favorites as "The Glory Song," "Beulah Land" and "The King's Business." Dr. P. O. Lucas sang "Oh Love That Will Not Let Me Go," and responded to an encore. In well chosen words of commendation, Dr. C. M. Crist introduced his friend of many years, Dr. Peck of Long Beach, an evangelist in the Southern California conference.

Willing to Fight
Dr. Peck had had forty years' experience in the ministry as district superintendent and as evangelist. He prefaced his address by saying that while he hoped and prayed for a righteous peace he also believed in fighting in a just cause. He stated his belief that the time had come for Turkey to end her cruel misrule, saying:

"I sincerely believe that if America occupied the place that it should in the world of affairs that present conditions need not exist. My daily prayer is that Methodism may measure up to its duty and opportunity."

Dr. Peck then took up his subject of evangelism, and out of his experiences and illustrated by incidents in his busy life he advised those present how to increase their usefulness as Christians, dividing his subject into three parts:

"First, to become successful workers one should first know God. There is no substitute. Second, know the Bible. Study it. Hide it in your heart. Third, study men. Find the approach to their hearts. Conform to these rules and you will be a successful, happy, Christian worker."

Today's World News in Brief

By International News Service Leased Wire

JUGO-SLAVIA SECRETLY MOBILIZING, ROME REPORT
ROME, Sept. 23.—It was reported on the frontier today that Jugoslavia is secretly mobilizing.

CHAS. TOTH HALF WAY ACROSS ENGLISH CHANNEL
DOVER, Sept. 23.—Charles Toth of Boston, who started at 8 o'clock last night to swim the English channel from England to France was half way across at 7 o'clock this morning and was swimming strong.

DE VALERA MEMBER OF BAND ATTACKING COLLINS
DUBLIN, Sept. 23.—Eamonn de Valera was a member of the irregular detachment which attacked Michael Collins from ambush in County Cork and shot him to death, it was charged today by Sean McGarry, a member of the dail eireann, and an officer in the free state army.

OFFICIALLY EXTEND LIFE OF OLD TARIFF ACT
WASHINGTON, Sept. 23.—Until such time as the treasury department can work out new regulations to enforce the new Republican tariff act, the old regulations governing admission of foreign imports will be in effect, it was announced here today. An official order extending the life of the old regulations for an indefinite period was issued.

GREEK CHRISTIANS BEING SLAUGHTERED. REPORT
PARIS, Sept. 23.—Fires and massacres of Greek Christians such as swept and devastated Smyrna were reported today from Adramyti and Aivali, in Asia-Minor. They are not officially confirmed. The population of the two districts were said to be in flight. Adramyti is eighty-five miles north of Smyrna and fifty miles south of the Dardanelles. Aivali is on the Gulf of Adramyti.

BRITISH FORTIFY CONSTANTINOPLE AGAINST TURKS
LONDON, Sept. 23.—Guns are being landed from British warships at Constantinople and mounted for the protection of the city against the Turks, said advices from that place today. The military expert of the Evening News says that the British could not hold Chanak, on the Dardanelles, against Turkish attacks from Ezine and Bigha, and that the British fleet in the straits would be useless.

RANGERS KEEP MOB QUIET FOLLOWING SHOOTING
PUEBLO, Colo., Sept. 23.—With a detachment of state rangers patrolling the vicinity of the railroad yards here, quiet prevailed today following an attempt by a mob of several hundred men to find T. P. Garrett, a railroad shop worker who is said by police to have shot and instantly killed Patrick Flannery, a striking car man. The shooting occurred, according to police, when Flannery accosted Garrett on the street.

CALIFORNIA REPRESENTATIVE HURT IN AUTO CRASH
BALTIMORE, Sept. 23.—Two men were dead today and two others, one of them Representative Arthur M. Free, of San Jose, Calif., were suffering severe injuries as the result of an automobile crash last night. The dead: I. C. Freeman, secretary to Representative Free, and William S. Dennis, 438 California street, San Francisco. The injured: Representative Free, severe scalp wounds and internal injuries; N. S. Dennis, San Francisco, cuts on legs and face, possible internal injuries.

FORBIDDEN FROM MARRYING DIVORCED PERSONS
PORTLAND, Ore., Sept. 23.—The forty-seventh triennial convention of the Protestant Episcopal church will come to an end here today. One of the final actions of the convention was to amend a canon of the church so as to forbid communicants marrying divorced persons, except where infidelity is the grounds for separation. Before amended the law prevented clergymen from marrying divorced people but as reformed communicants themselves are specifically forbidden from marrying divorced persons.

TURKS BACK DOWN ON THREAT, NOW SEEMS BELIEF
CONSTANTINOPLE, Sept. 23.—Apparently the Turks have backed down on their "ultimatum" to attack Sunday unless an immediate peace conference were summoned and assurances given to the Kemalists that they would obtain Constantinople and eastern Thrace. General Pelle, acting upon instructions from Paris, is said to have assured Kemal that the near east conference would be hastened and that Turkey would assuredly obtain sovereignty over this city and part of Thrace bordering the Black sea.

RICH YOUTH GETS PRISON TERM FOR AUTO CRASH
SAN JOSE, Sept. 23.—An indeterminate term of from one to five years in the state penitentiary at San Quentin is the sentence imposed today by Superior Judge R. Welch upon Philip C. Valentine, son of the late John C. Valentine, millionaire president of the Wells Fargo Express company, on a charge of driving an automobile while intoxicated. Valentine, according to the district attorney, while racing his car, endeavoring to elude pursuing traffic officers, ran into another automobile resulting in injuries to Miss Miriam Donald, school teacher, necessitating the amputation of her right leg and mutilation of her right hand.

COURT SUSTAINS INJUNCTION AGAINST RAIL MEN
CHICAGO, Sept. 23.—In the most important decision ever handed down to organized labor in federal court, United States Judge James H. Wilkerson today sustained the temporary writ of injunction secured by the government against the striking railway workers. The decision took thirty-six hours of preparation and was read to a packed court room shortly after 11 o'clock this morning. Attorneys for the defense who had battled vainly against the drastic injunction and the government's attorneys who had presented a mass of affidavits to sustain their contention that a conspiracy to obstruct interstate commerce existed, leaned forward anxiously to listen to the judge read from his closely typewritten pages the decision that would leave a permanent effect upon organized labor in the United States. "The motion to dismiss the bill must be denied," declared Judge Wilkerson. "The complainant, however, is entitled to an injunction prohibiting the parties to this combination from committing the unlawful acts charged, the effect of which is to obstruct interstate transportation and the carriage of the mails or to restrain interstate commerce, as well as the acts charged which are lawful in themselves when done in furtherance of a conspiracy to obstruct interstate transportation and the carriage of the mails or restrain interstate commerce. The parties will be heard as to the form of an order to be entered in conformity with the views here expressed." In sustaining the government's plea for making the injunction permanent, the law was clearly laid down that leaders of a nation-wide strike are responsible for the acts of violence resulting from their calling of the strike. Simultaneously with the granting of the court's decision sustaining Attorney General Daugherty's pleas, attorneys for the defense, acting on behalf of the American Federation of Labor started work to carry the case through to the highest tribunal of the land to settle definitely the righteousness of Judge Wilkerson's decision.

CITY COUNCILMAN SAM DAVIS IN TRAIN WRECK

Municipal Official Escapes Injury; Engineer and Fireman Killed

The Shore Line Limited of the Southern Pacific, which was wrecked about 8:30 o'clock last night five miles south of Ventura, carried as a passenger Councilman Sam Davis.

For some unknown reason Mr. Davis had a presentiment all day that the train was in danger of an accident. For that reason he remained as near the rear as possible and spent most of the day on the observation platform. At the time of the accident he was in the second chair coach from the rear. His left foot was tilted to the level of the window sill. The force of the collision jolted his foot to the floor and almost dislocated his ankle.

A remarkable feature about the wreck, according to Councilman Davis, was the manner in which the coaches spread out along the right-of-way at right angles to the railroad track. He says that the trucks went one way and the bodies went another way, like match boxes. He believes that great loss of life was prevented by the fact that the cars were of steel construction.

Twenty Minutes Late
The cause of the accident, in the opinion of Councilman Davis, was the belief that the limited train had already passed whereas instead it was twenty minutes late. The engine of this train crashed into the engine of a local train which was just pulling onto the main line from a branch from Saugus. It was scheduled to run up the main line about five miles to Oxnard.

After a delay of a number of hours a special train arrived at the scene and the passengers, most of whom were uninjured, were brought to Los Angeles over the valley route. Councilman Davis arrived at his home, 118 West Colorado street, about 3 o'clock this morning considerably fatigued.

Two Dead, 30 Injured

MONTALVO, Calif., Sept. 23.—Engineer Richard H. Bradley of the Southern Pacific's crack Shore line limited train No. 78, (Continued on Page 14)

LEGION SELECTS MEMBER SLOGAN

Local Post 'Five for One' Campaign Expected to Produce Results

"Five for One" was the slogan adopted last night at the regular weekly meeting of the local American Legion post as a slogan for the coming membership drive of the organization. The proposition, which was suggested by Dr. W. C. Mabry, stipulates that every member of the post will attempt to obtain five ex-service men for initiation within the next two months. Practically every member present signified his willingness to carry out the plan, which is hoped will double the present membership.

In the absence of Chairman C. B. Guthrie of the administration committee, Dr. Mabry gave a detailed report of the activities of that body during the past few weeks. His report dealt principally with the recent appointment of various sub-committees in charge of the working out of the building plan. Dr. Mabry firmly denied any and all rumors that have been circulated to the effect that the building proposition had been abandoned.

Favored by Candidates
A communication was read from Mrs. Carol Marks, state president of the Women's Auxiliary, stating that both Friend W. Richardson and Thomas Lee Woolwine, Republican and Democratic candidates for governor, have both announced that they are supporting propositions No. 1 and 3 on the ballot for the coming November election. These are called the "Soldiers' Farm and Home Acts" and will provide for all ex-service men who entered the army or navy while residents of California, allowing them to borrow funds from the state for the purchase of homes.

Prior to adjournment, Commander J. F. McBryde announced that a number of new candidates are to be initiated into the post at next Friday's meeting. Several delegations of Legionnaires are expected to be present from outside posts.

CHRISTIAN CIRCLE CLUB

The first meeting of the season for the Christian Circle Club will be held next Thursday night at the Christian church. This club is open to all high school girls and young business women. Dinner will be served at 5:45 o'clock, followed by devotionals led by Miss Maude Soper.

ACTS AN BRIDESMAID
 Miss Mabel P. Gilbert of 211 North Cedar street will act as bridesmaid at the wedding in Hollywood of her cousin, Miss Emily Gilbert and Roscoe Walters.

HOSPITAL LAW CASE ARGUED; EAGLE ROCK DEFENDS

Plaintiff's Attorney Says City Cannot Prohibit Public Institutions

The case of Keplinger vs. City of Eagle Rock, in which Mr. Keplinger is seeking to enjoin the city from prosecuting him under the hospital and sanitarium ordinance for maintaining a so-called "rest home" outside the district prescribed in the ordinance, is creating considerable interest in the Los Angeles superior court.

On Friday T. C. Gould, attorney for Keplinger, made his opening argument, during the morning session of the court.

Rollin L. McNitt, city attorney of Eagle Rock, occupied the entire afternoon session of the court, when he made a carefully prepared legal argument in support of the ordinance. Mr. Gould's concluding argument will be presented to the court on Tuesday, September 26.

Predict Outcome

Mr. McNitt ventured his first statement as to the outcome of the case this morning, when he predicted that the portion of the ordinance requiring a permit before a hospital can be maintained in the city will undoubtedly be sustained.

Serious doubt is expressed by Mr. McNitt as to the validity of that part of the ordinance which prescribes the district within which hospitals are to be confined, as the California supreme court is said to have held that a hospital, being a lawful business, cannot be prohibited, either directly or indirectly, and the tendency of the prior decisions points toward the invalidity of the ordinance upon the ground that the small district created by the ordinance in the center of the city is practically prohibitive.

It is understood, however, that Mr. McNitt made a strong argument in support of this portion of the ordinance, relying upon those cases which have heretofore sustained zones for laundries, lumber yards, brick yards, undertaking establishments, etc.

In a sense the zoning laws are involved, and consequently the case is said to be of great importance.

Return to Service In Missions of China

After a two years' stay in the United States, one of which was spent in Glendale, Rev. and Mrs. E. D. Chapin have returned to missionary service in China. While in Glendale they made their home at 229 South Kenilworth avenue.

This is Rev. Chapin's eighth trip to the Orient, while Mrs. Chapin has made the journey six times in the Human province to a mission station they opened twenty-six years ago. The Chapins sailed from San Francisco September 12. They are relatives of J. G. Brunner of Glendale.

CONCERN TO AID LOCAL BUILDING

Charles B. Hooper Relates How Housing Company Helps Community

The need of a free supply of money to finance Glendale's building program for the current year is generally understood, according to Charles B. Hooper, vice-president of the Security Housing corporation, who points out that the increased population will necessitate a certain program of approximately \$6,000,000 during this year. "A community that has grown from a population of less than 2000 only twelve years ago to approximately 32,000, and has undertaken large civic enterprises, has established itself in a leading place among the progressive communities of the southland and its future is assured. Capital should be equally available for home-builders as for public enterprises," said Mr. Hooper.

"The Security Housing corporation is a \$2,000,000 company, organized a few months ago by prominent Southern California business men expressly for the purpose of aiding persons of moderate means to build homes. Through years of practical experience these men came to know all the problems pertaining to the financing, planning and construction of homes. They determined the time was opportune to help the aspiring citizens desiring to own their own homes but unable to accumulate the necessary funds with which to build them.

Tells of Provisions
 "The members of the Security Housing corporation believe in Glendale and stand ready to do their part in its upbuilding. It lends any responsible person who wants to build his own home up to 70 per cent of its total cost, and will render every possible assistance in all the many little troubles unavoidably associated with home-building. Few persons who have not built a home are aware of the many pitfalls that lie in their path. There are matters of employers' liability, insurance, of guarding against mechanics' liens, of properly filing plans, obtaining release and receipts from subcontractors, material houses, etc., so the property can be properly cleared. There are many legal considerations involved.
 "The unaccustomed builder learns of these only by hard experience, and frequently at a very high cost to himself. It was the thought of those who organized the Security Housing corporation, whose Glendale office is located at 130 Seaton boulevard, that all these things could be done for the prospective home owner so that he could go about his usual business while the home was being prepared for him," states Mr. Hooper.

LICENSE RECORDS SHOW INDUSTRY

Plumbers and Realty Men Divide Honors; Electric Men Come Second

The records in the license department in the Eagle Rock city hall disclose the fact that so far this year exactly 362 business licenses have been issued to as many firms and individuals to carry on varied business enterprises in the city of Eagle Rock. The plumbers and real estate men head the list as far as numbers are concerned, there being just fifty plumbers and fifty real estate men that have been issued a license. Following a close second are the electricians, who number forty-six.

Third place is held by the contractors, whose total is twenty-nine. Transfer and hauling, twenty-six; peddlers, twenty-one, and grocers, seventeen, deserve honorable mention. A sandwich stand, furniture store, fruit and vegetable stand, hotel and a dealer in ice are recorded as only one each. There are eleven outside laundries who are licensed to pick up laundry in the city, but not one laundry has its plant within the city limits of Eagle Rock.

BUILD RECORD GROWS
 Building records are still piling up in the office of the superintendent of the building department at the city hall. This morning the total for the month so far was \$525,320 and for the year \$4,632,821.

EGG-CITEMENT IN THIS RESTAURANT

Home Grown Hen's Fruit Is Cause of Big Noise In Eating House

Ben B. Martsoff, city clerk of Eagle Rock, left the city Friday evening for Long Beach, to bring Mrs. Martsoff back from a week's vacation that she has been spending at the beach, and both arrived back in Eagle Rock this morning. While his wife has been away, Martsoff has been eating his meals in Frank Miller's restaurant, and therein lies a story.

It seems that Ben likes eggs for breakfast, and while he didn't cast the slightest suspicion at the quality of eggs that Miller served, the second morning that he took breakfast with Miller, he brought some eggs that his own hens had laid in the backyard of the Martsoff home. He told Miller what "elegant" hens he had up at his home, and what fine eggs they laid, and instructed Miller to fry a couple of them for his breakfast. Miller cracked one of them preparatory to putting it in the skillet, but that was as far as he got. It was a bad egg.

He has been taking breakfast with Miller ever since, but he has not brought any more of his own eggs to the restaurant.

Protected!
 Amid all the suffering caused by the "Argonaut" disaster, isn't it great that the dependents of the victims are protected by law and will receive "compensation insurance," so that the wives and children will be spared the added pang of poverty? If you could but know the great benefits conferred by insurance, day by day, you would carry every dollar of it possible.
 Endowment Insurance is the absolutely SURE kind—if you die, either by accident or disease, your family is protected; if you live to the age of retirement, you have provided a certain income.
 Why do we have to work so hard, sometimes, to insure people? Can you answer?
 W. B. KIRK

Deaths and Funerals
J. S. BAIRD
 The Glendale friends of A. L. Baird of 637 North Orange street and Mrs. T. C. Young of 400 North Kenwood street were shocked to learn of the death of their father, J. S. Baird, who passed away at Winterset, Iowa, Friday, September 15, 1922, at the age of 77 years. He had suffered an attack of heart trouble about two months ago, but seemingly recovered from that and was quite well. The Glendale relatives received word by telegram Saturday of his death, in which it was stated that it had been very sudden and he had not been ill previous to his passing.
 A. L. Baird and Mrs. Young left Sunday for the east. Mr. and Mrs. J. S. Baird both have made many friends and acquaintances in Glendale, having spent the past two winters in this city. They left for their home in Winterset, Iowa, in April, after a pleasant winter spent here with their son and daughter. A. L. Baird expects to return to Glendale about the first of October, but Mrs. Young will remain in the east with her mother until some time later.
BEYRI E. MORGAN
 Beyri E. Morgan passed away September 22, 1922, at 231 1/2 North Brand boulevard, at the age of 30 years. She leaves an only son, Chaney Morgan, a father, J. M. Emmert, three brothers and a sister, Charles Emmert, Allen Emmert, Glenn Emmert and Mrs. Guy Shown of Fresno. Mrs. Morgan had been a resident of Glendale about six months. The son, Chaney Morgan, is living with his grandfather, W. E. Morgan of Santa Ana.
 Funeral services will be held Monday morning, September 25, at the parlors of the Jewel City Undertaking company, with interment at Santa Ana.
EINAR SORENSON
 Louis Sorenson of Seattle, Wash., arrived in Glendale this morning with the body of his brother, Einar Sorenson, whose death occurred Tuesday, September 19, following a fractured skull which he received when he accidentally fell through a hole in a ship on which he was working.
 Funeral services are to be held this afternoon at 3 o'clock at the Little Church of the Flowers in Forest Lawn, where the burial will take place, under the direction of the Jewel City Undertaking company.

 J. M. Prime of 323 North Howard street is enjoying several days' vacation at La Crescenta.
 Mr. and Mrs. A. B. Woodside of 536 North Kenwood street entertained a group of friends at an informal party at her home Thursday night.
 Dr. Margaret M. York of 1005 North Central avenue will have as her Sunday guests Dr. Clair Pottinger of Los Angeles, Arthur Branding of Santa Ana and Miss Emily Hoster of Los Angeles.
 Mr. and Mrs. W. H. Reynolds of 910 Kenneth road, Mr. and Mrs. J. F. Reynolds and Miss Dinie Shuo of Nebraska, who is visiting here, returned to Glendale the early part of this week from a ten-days' motor trip to Yosemite National park.
 Robert N. Taylor of 205 West Acacia avenue, prominent member of the N. P. Banks post, G. A. E., left Thursday for Des Moines, Ia., to attend the national gathering of Civil War veterans. Mr. Taylor goes as official delegate of the California-Nevada district. He plans to be away six or eight weeks, attending the convention and visiting relatives and friends at his old home near Des Moines.
 A two-point deer was found dead Thursday morning in the yard at 1940 Gardena avenue. O. W. Ennis of 1951 Gardena avenue reported that the animal had crashed into a fence during the night and had broken its neck. The buck weighed about 100 pounds. It is believed he had been chased out of Griffith Park by dogs. The Glendale police department investigated the "suicide."
 Mrs. C. Hamilton of 605 East Acacia avenue was hostess Thursday to the members of the Semi-Monthly club. A delicious luncheon was served and the afternoon devoted to a game of Five Hundred. Mrs. J. Chappius made the highest score and was awarded the club prize. Those present were Mrs. W. O'Brien, Mrs. H. M. Doll, Miss May Ruprecht, Mrs. Peter L. Ferry, Mrs. Carrie Smith, Mrs. C. A. Dudel, Mrs. J. Chappius and Mrs. Hamilton.
 The members of St. Mark's women's guild of the Episcopal church held their regular meeting Thursday afternoon in the guild hall of the church, with Mrs. Moritz Baker in charge. At the business session final arrangements were made for the next dinner to be given by the guild. This will be held at the church on October 19 and will be in the form of a dinner and social evening, for which a program is planned. Mrs. B. O. Holbrook is chairman of the committee in charge.
 James M. Rhoades, secretary of the Glendale Chamber of Commerce, is expected to return to the city this afternoon after spending a week at the Western school of Community Leadership at Stanford University. E. F. Sanders, the assistant secretary, has just received a card from Mr. Rhoades stating that the school was going in fine shape and that he expected to return to the city with a lot of new and constructive ideas. Special lectures are being given during the week, he writes.
 Mrs. Eustace Moore, president of the Glendale Federation of Parent-Teacher associations, attended the meeting of the First District in Los Angeles Thursday, at which plans were announced for the first district conference to be held at the South Pasadena high school on October 26, when the subjects of legislation, membership and thrift will be discussed. It was urged that federation chairmen hold meetings in order to discuss the thirty measures to be placed on the ballot at the coming election.
 A motor trip of 7,000 miles through fifteen states has just been completed by Mrs. Frank Guillemain and sons Walter F. and Carl, who arrived this week at their home, 405 West Elk street. They went by way of Portland, Oregon, and returned by way of Colorado, where they climbed Pike's Peak and visited the Grand Canyon. While in the east they visited relatives and friends in Wisconsin. Mrs. Guillemain's brother-in-law, Henry Johnson, accompanied them back to California and plans to make his home in Glendale.

Banquet Marks End of Bowling Season
 The farewell banquet marking the close of the season for the Southern California Elks Bowling Tournament association, held at Anaheim last night was attended by a party of Glendale folks including Mr. and Mrs. Joseph Fortunato, Miss Edith Colar, Ben Durban, Mr. and Mrs. James Appel, Mr. and Mrs. Arthur Dibbern, Mr. and Mrs. Claude Caswell and Dr. and Mrs. Casey Brain. At that time the tournament prizes were awarded. Long Beach Elks' Bowling Team No. 2 were awarded the first prize. To Joseph Fortunato of Glendale was awarded the second prize for individual high average. His average score for the season's games was 191.
CONFIRMS REPORTS
 WASHINGTON, Sept. 23.—The state department today confirmed reports of the appointment of Robert C. Morris, New York lawyer, as American agent of the mixed commission which will adjust German-American war claims.

A Boon to Mothers
The Ideal Family Wash Service
 Of all our patrons, mothers can best appreciate the advantages of the Ideal Family Wash Service. It means so much to them—especially when school days arrive, necessitating a continual supply of fresh clothes—to be sure that their wash will be called for regularly every Monday—to know that it will be handled by expert and reliable operatives in a sanitary plant, equipped with the latest improved machinery—to be able to count upon always getting the same excellent, efficient service—and, above all, to pay for this highly specialized washing service a price which is less than they would pay a laundress for the same class of work.

Mrs. John W. Cotton
 Hostess to Officers
Reception Under Way at Fashionable Center
 Officers and directors of the Madrigal club were luncheon guests yesterday of the president, Mrs. John W. Cotton at her home at 1137 San Rafael avenue.
 The affair was given to bring the women together to make plans for resuming the club work for the fall and winter months. The first rehearsal of the club is to be held early in October.
CAMPAIN TO CONTINUE
 The campaign for the collection of the \$25,000 electrification bonus will continue next week, according to P. J. Hayselden of 612 East Broadway, director of the drive. Mr. Hayselden has called a meeting of the campaign committee for Monday morning. At this time he will recommend the employment of professional solicitors to raise the \$8000 balance.
 Modesty and merit are a handsome couple.

SPORTS

JAKIE MAY HURLS SIX INNINGS TO NO-HIT MARK

Then He Is Touched Off for Two Bingles; L. A. Team Gets Third Defeat

Almost duplicating Wheeler Dell's "no-hit" feat of Thursday, Jakie May, the diminutive pitching ace of the Vernon staff and ranked as the best portlander in minor league baseball, yesterday pitched six and two-thirds innings to the Oakland squad before a safe hit was registered off his delivery.

When the nine innings were over it was observed by peering the box score that but two hits had been made by the Acons, both of them being of the scratch variety. Lafayette was the oak who succeeded in breaking the ice, his hit in the seventh being a slow bouncer over the pitcher's head which May touched with his glove but was unable to toss to first.

The other bingle came in the final round when Dennis Willie smashed a hot liner through the middle of the diamond. Ray French made a desperate attempt at nabbing the ball, succeeding in getting it in his gloved hand only to drop it to the ground again.

The final score was 4 to 0 and the fourth consecutive win registered by the Tigers this week. The Vernon's pitchers are performing now better than at any time this season, and if the present pace is maintained to the end of the season Bill Essick is going to again be the proud daddy of a Pacific Coast league pennant.

Meets Third Defeat

Los Angeles' Jinx still is with the team, according to reports reaching here from San Francisco. Wade Killefer's Angelic horde was defeated yesterday for the third consecutive time this week by the Seals, who have heretofore been easy meat for the southerners. Yesterday's score was 4 to 3 and was easily the best game of the week. The inning run was shored across in the fourth in which when Wallace weakened and allowed a brace of hits. Los Angeles is now hopelessly out of the race although their efforts with San Francisco during the rest of this week and all of next will have a considerable bearing on the possibility of bringing a pennant to the south.

Bill With Thrillers

With the fight alternating, first to Sacco and then to Lavigne, the main event at last night's weekly boxing card at the Hollywood American Legion stadium resulted in a draw. Jimmy Sacco started out in the opener as though he were going to finish the battle within the next few minutes, but at the beginning of the third round "Pasadena" George Lavigne suddenly came to life and succeeded in evening the score before the final gong was sounded. The battle was one of the best welterweight matches staged at the Hollywood arena for the past few weeks and it is probable that these two boys will be rematched in the near future.

In the semi-windup Joe Dunn was defeated by a shade by Charley Sullivan of Oakland. Dunn led for the first two rounds, but his advantage was cut down in the later stages of the bout when the northerner succeeded in getting in a number of hammering body punches.

Results of the other bouts are as follows: Eddie Roberts beat Jimmy O'Gatty, Walter Grejack took a decision from Connie Curry, Eddie Huse was defeated by Jack Powell, Kid Louie walloped Ad Remy, and Young Munroe was knocked out in the fourth by Johnny Farr.

Barbers May Close Shops at 6 o'Clock

Barbers of Glendale now are considering closing their shops at 6 o'clock instead of 7 each evening except Saturday when they will remain open until 9 p. m., as usual. It is said that the order will become effective October 1 if the barbers will agree to adhere to the rule.

LOCAL SQUAD AND FAHY FORDS TO CLASH SUNDAY

Game With Paint Team Is Called Off; Averages of Glendale Compiled

The game Sunday between the Glendale Merchants and the Cal-Pa-Co. Paints has been called off. Instead, Glendale fans are promised a real treat as the local boys will play the Fahy Fords of Los Angeles.

The Cal-Pa-Co. Paints were fortunate enough to get a game for this Sunday with San Diego, and asked to be released from playing here Sunday. As the local boys are also anxious to go to San Diego, Manager John A. Cobb of the Merchants readily consented to the change. The Paints will play their game here in the near future, it is announced.

The Merchants will go to San Diego two weeks from Sunday if things go according to schedule. Now to come back to Sunday's game with the Fahy Fords. Roy Armstrong is the manager of the Los Angeles outfit, and he has what is said to be a crack team.

Promise Real Battle

In fact from all accounts Sunday's battle would be an even toss up between the Paints or the Fords. Both are strong teams, and the fans will see a real game of ball regardless of which team comes to take what Dewey Harris can deliver in the way of cork-screw balls.

Then, too, there is another surprise that is to be sprung Sunday. Here is the dope on the latest addition to the Glendale Merchants.

Manager Cobb has secured "Red" Lowrance, an infielder and a fast stepper, according to all reports.

Lowrance played last year with the Independence, Kan., team, which won the championship of the Southwestern league. Just to prove that Manager Cobb has secured the goods for the Merchants you are referred to Spaulding's official athletic guide. Turn to the Southwestern league and you have the work of the Independence team, and incidentally you see a picture of Lowrance.

The batting averages of the local boys are improving right along. Look them over. They're right up to the minute.

Barbers May Close Shops at 6 o'Clock

Barbers of Glendale now are considering closing their shops at 6 o'clock instead of 7 each evening except Saturday when they will remain open until 9 p. m., as usual. It is said that the order will become effective October 1 if the barbers will agree to adhere to the rule.

The Sport Crucible

By Davis J. Walsh
International News Service Sports Edition

NEW YORK, Sept. 23.—There will be a New York series for the world's championship. Today the Yanks have a lead of three and a half games and the Giants are in the van by four and a half games.

The Yanks have six more games to play and the Giants have ten contests on the schedule. All that the New York team will have to do to clinch the pennant in their respective leagues will be to win half of their remaining contests, even though the contenders, the Browns and Pirates, win all of their remaining games, five and seven, respectively.

SPORTS CHATTER

By BILL UNMACK
PACIFIC SPORTS SERVICE

From present appearances it does not look as though John McGraw and his New York "Giants" can be ousted from once more inscribing their names as pennant winners of the National league—but you never can tell.

If New York wins the pennant this year it will once more set a record for a team winning the flag two years in succession. Incidentally this same New York outfit was the last team to win the pennant more than once, a feat won from 1911 to 1913, inclusive. McGraw pulled this trick, but then no other team has succeeded in making two straight wins. For the last eight years Brooklyn is the only team that has gone into the world series on two occasions first in 1916 and again in 1920. Boston won in 1914, Philadelphia in 1915, New York in 1917, Chicago in 1918 and Cincinnati in 1919.

During the last eight years five managers between them have won the eight races. McGraw of New York is registered with two of these victories to his credit, with the Brooklyn Dodgers and Pat Moran has two wins, but with different teams, he having won with Philadelphia in 1915 and then in 1919 as pilot of Cincinnati he again won.

McGraw has been manager of the Giants for twenty years, or since 1902, and in that time he has won the National league pennant seven times, and looks as though he is going to make it eight this season. The winners of the National league flag since 1880

With Pancho Villa, the Philippine boxer, flyweight champion of the world as the result of his recent meeting with Johnny Buff, it looks as if we would have to give the islands at least a modicum of recognition.

The more Jess Willard shows his wares in the boxing line, the less impressed are the fans who go to look him over. Instead of gaining supporters, Willard is demonstrating the utter foolishness of his ever getting in the championship prize ring again.

Under the circumstances one wonders whether, after all, Jess is in need of. Rumors are to the effect that Willard's business ventures have not proved the financial success as some would have us believe.

The latest news about Dempsey is that he has a boil, that he is going big game hunting and that he is going to make another trip to Europe, this time to engage in a couple of fights with easy marks. Just how long Mr. Dempsey can continue to take European trips and big game hunting expeditions without repeating his strong box remains to be seen. There is a lot of money going out and not much coming in at the present writing.

All reports that come out of the Yale football camp at New Haven continue to make the blue gridiron warriors the early season favorites over their time old rivals of Princeton and Harvard. Princeton generally is credited with having the toughest job on its hands, having lost more of her old and tried material than either of the two other institutions.

Just how much more effort and stamina is needed to swim a quarter of a mile as against running the same distance has been the matter of discussion between a swimmer and a runner. The swimmer claims that the runner has an easy time of it in comparison. It is not likely that any one will dispute the swimmer has the harder task, but it is going to be a difficult matter to figure out a

table of statistics reducing the comparative effort to figures.

Tagging All Bases

The Giants put a crimp in Pittsburgh's final bid for the pennant when they staged a ninth inning rally and nosed out the Pirates, 8 to 7.

Misplays by the Athletics as well as a batting spree by the Browns resulted in an 11 to 5 victory for St. Louis.

After Cheeves had tamed Philadelphia in 11 innings in the first game Chicago tossed off the second game to the Phils with four misplays.

Cliff Markle held the Boston Braves to three scattered hits and enabled Cincinnati to win the second game, 6 to 0, and earned an even break as Boston won the second round.

Directors of Club Meet Next Monday

A special meeting of the directors of the Thursday Afternoon Club, of which Mrs. William Mabry is president, has been called for Monday afternoon, September 25, at 2:30 o'clock at the home of Mrs. A. L. Bancroft, Laurel and Brand boulevard.

The members of the ways and means committee, of which Mrs. Bancroft is chairman, will also meet with the directors, and other members of the club have been urged to attend. Final plans will be completed for a bazaar to be given by the club, the date of which will be decided at this meeting.

DIVISION OF HUGE FORTUNE RESULTS FROM SERIES

Many Avenues Into Which Money Goes; Nice Nest Egg for Players

BY FRED ORRIN
For U. S. Sports Service.
NEW YORK, Sept. 23.—When it is figured that since 1903 there has been nearly six millions of dollars taken in at the gates during the playing of the various world's series of baseball games in the United States, there are probably a lot of folks who would like to know what becomes of this huge fortune.

As a matter of fact, there are so many avenues for its distribution that no one individual or organization gets a sum that presents a formidable figure. For instance let us suppose that \$50,000 is taken at the gates for the first game of the coming series. First off 15 per cent of that amount is paid to the treasurer of the commission, or \$7500. That leaves \$42,500. Of this 60 per cent goes to the players and 40 per cent to the promoters. Then there are other subdivisions:

The players in the world's series get 75 per cent of the players' pool. The players of the four other teams finishing second and third in their respective leagues get 25 per cent. All this brings it down to \$19,125 to be divided among the world series players and \$6375 for the other fellows. Approximately 125 players are entitled to cut into the players' pool, so it will be readily seen that no one athlete is going to receive an amount that is likely to upset the equanimity of Wall Street.

To continue the arbitrary computation on the basis of the \$50,000 originally received, the club owners' share would be \$17,000, which has to be divided between the two clubs or \$8,500 each, and each club is required to pay into its treasury one-half of the amount for the support of the organization, thus leaving \$4250 for the club owner.

It also must be taken into consideration that the players only participate in the distribution of the money taken in during the playing of the first five games. After five games have been played the athletes are out of it and the commission takes 15 per cent. Then the rest is divided among the promoters.

REPORT MADE ON SUMMER CAMPS OF Y. M. C. A.

Executive Meeting Is Held; Approve Plan of Work for Younger Boys

A report of the summer activities of the Y. M. C. A. was made by Rex C. Kelley at an executive meeting Thursday night at the headquarters of the organization at 103-A East Broadway.

Mr. Kelley made a report of the work accomplished at the four camps conducted by the local Y. M. C. A. this summer and held at Catalina Island.

A new program for the younger boys, and known as the "Y" Notchers

**WOMAN HAS WAY
TO AID DRIVERS**

**Golden Rule Is Good Motto
for Auto Owners, and
Should Prevail**

What an excellent thing it would be for motoring if folk who believe in picking up stray pins for luck would include nails and tacks among their omens, suggests a woman motorist. Perhaps a wicked-looking nail hasn't any place in the creed of the superstitious, but each removal of one of these potential trouble-makers from the street would certainly bring a heap of good luck to some car owner with a weak tire.

The number of nails that are picked up by tires far exceeds the number of stray pins which are snatched from the gutter by rescuers who imagine that the act will bring them a raise in salary or an unforeseen legacy. Nails are a source of nuisance for more than 12,000,000 car owners as well as for the millions of other folk who ride with them. It would seem that a real tangible form of good luck would surely follow every manual removal of stray nails from the streets.

Since motorists are pedestrians a very large portion of the time they could render a very valuable service to fellow drivers by removing every obstacle they see waiting in ambush for tires. Any motorist who does not make this small effort to help others deserves the bad luck of picking up a collection of nails in his best tire the next time he sets out for an evening's spin.

Once the habit of picking up nails begins it becomes far more irresistible than collecting pins, because its value as an instrument of good luck is so apparent.

**Fliv Overturns,
Owner Rights It,
Baby Sleeps On**

CINCINNATI, Ohio, Sept. 23.—Clarence McCoy, of Norwood, is a handy man with a flivver. He was driving home in his sedan the other night when the wheels skidded on wet street car rails and the car overturned. He and his wife, who was holding their sleeping baby in her arms, crawled out unharmed and McCoy took in at a glance that the auto was not damaged. He caught hold of the top and gave a mighty heave. The car righted and McCoy and his wife got back in and drove off. The baby was still asleep.

**DEMAND GROWING
FOR ROAD MAPS**

**Half Million More Guides
This Year Than Last,
Says Auto Club**

More than 4,000,000 road maps will be used by motorists in Southern California this year.

According to figures issued today by the Automobile Club of Southern California this part of the state of California is the most mapped territory in the world. In 1918 there were only 350,993 road maps used annually by motorists hereabouts. The next year this number jumped to more than 2,000,000 at which time the eyes of the entire United States centered on Southern California as the world's greatest touring and motoring center.

Great Increase
Last year local auto owners and eastern visitors secured 3,814,640 maps showing Southern California and transcontinental routes from the Auto club touring bureau. This year the number will be increased by half a million, says club officials.

If all the strip maps issued by the auto club this year were laid end to end, they would reach from San Francisco to San Diego and on over to the Imperial valley. Each map is ten inches and a half long and there are at least 4,000,000 of them. Figure it out for yourself.

Extreme accuracy is the watchword of the preparation of these maps, and constant road changes mean constant map changes.

Automobiles stolen in this country each year are estimated to value \$100,000,000.

**SPEED WAGON IS
TRAVELING SHOP**

**Plumber Makes Unique Use
of Reo; People Secure
Quick Service**

"One of the most unusual services which is being rendered by a Reo speed wagon is that of a traveling plumbing shop," according to Harry E. White of the Harry E. White, Inc., who has just received a description of the unique body which has been mounted on a speed wagon chassis by P. E. Cornell of Kansas City.

"Mr. Cornell's idea was to give the people the advantage of service without wasting time in going back and forth to his shop for material, which is, as you know, always charged up to the customer," says Mr. White.

"It has been conclusively demonstrated by this speed wagon plumbing shop that better service can be given at cheaper rates and at the same time enable the owner to make more money for himself than the plumber who has a shop to contend with. Mr. Cornell claims he can go a week without returning to his storehouse for replacements. The interior of the speed wagon plumbing shop is arranged with shelving, drawers and a workbench and is fitted with all the modern devices and tools needed in the plumbing trade."

Keep Line Clean

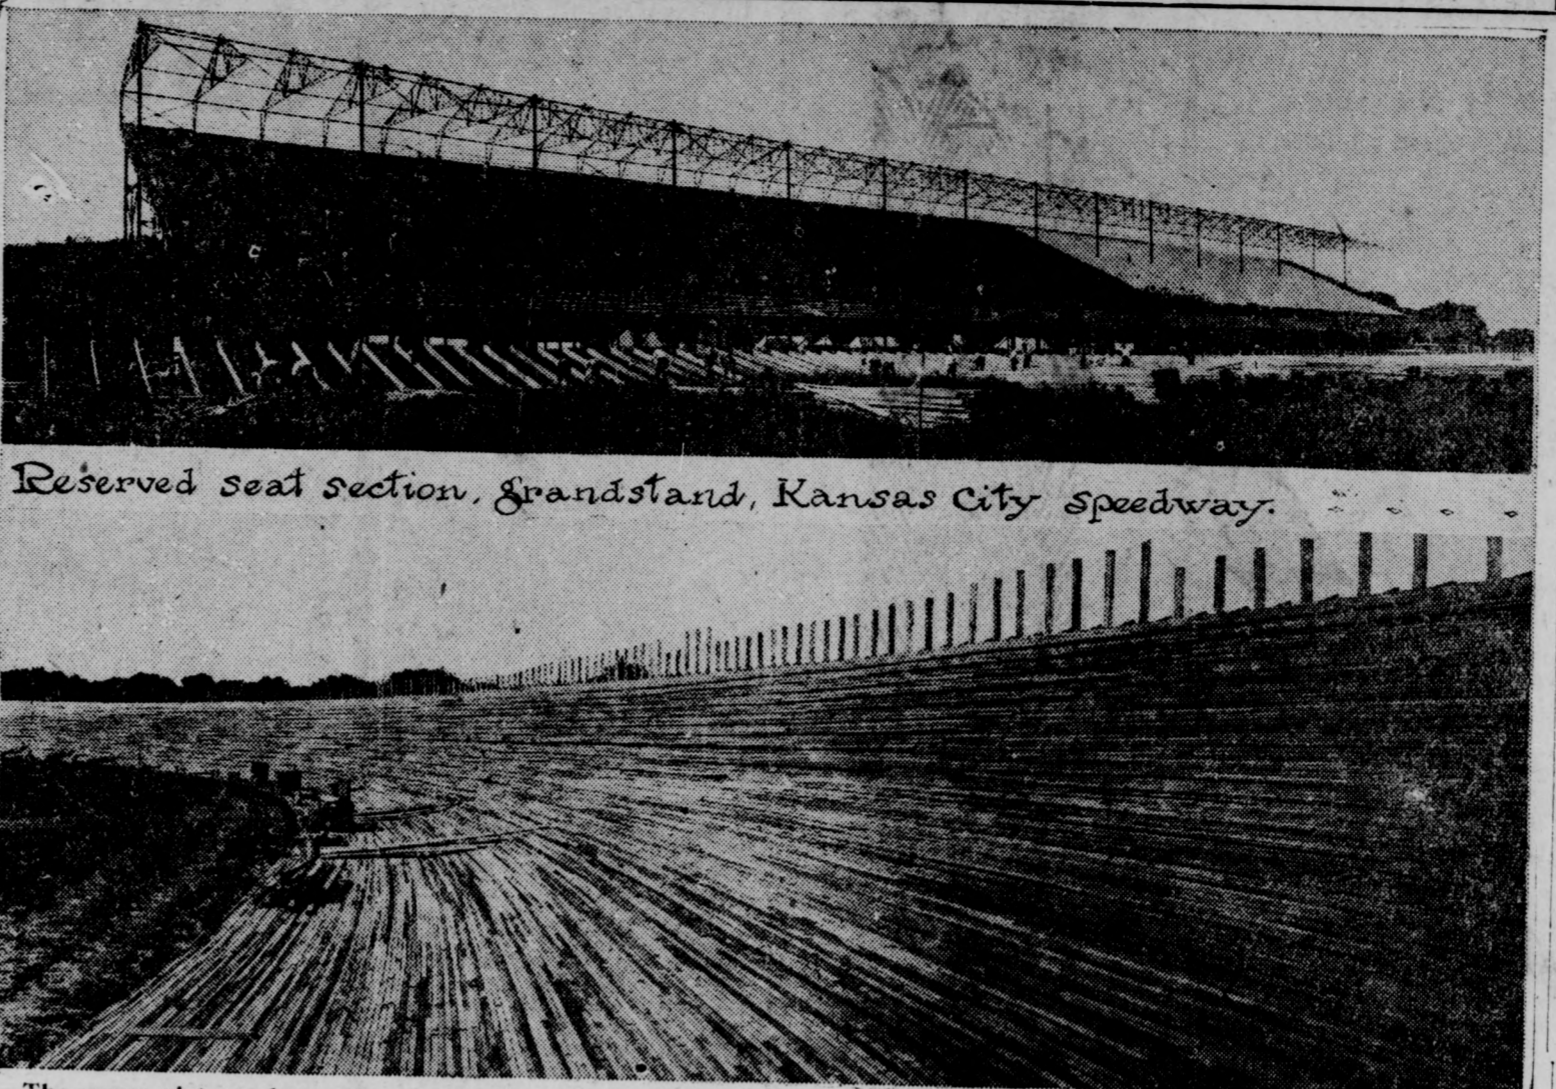

Remove the strainer in the gasoline line at least once a month, and clean out all foreign matter that has lodged there. The strainer is found where the feed pipe enters the vacuum tank, and sometimes another one where the gasoline enters the carburetor.

HAS DANCE PAVILION

Of the ideal motor tourists' camps throughout the country, there is one in Iowa which furnishes a tennis court and a dance hall, while a camp in Billings, Mont., maintains a dance pavilion for the pleasure of its tourist guests. In Denver, Colo., a billiard room and a racetrack are provided and a camp of twenty-five acres outside of Salt Lake City, Utah, has movies and lectures. A golf course is included with one of the motor camps in Seattle, Wash.

One of the largest oil and gasoline distributing companies in the United States owns and operates 1177 motor trucks, representing an investment of more than \$2,600,000.

Kansas City's New Half Million Dollar Speedway

The upper picture shows the reserved seat section, grandstand, of the new Kansas City speedway, declared to the fastest track in the country. It was dedicated with a 300-mile speed classic on September 15, the purse being \$30,000. Hanford MacHyde of Missouri and Governor Henry J. Allen of Kansas. "Fast a track as I ever drove on," was the declaration of Tommy Milton, winner of the dash in which Roscoe Sarles, veteran driver, was killed and eight other drivers and mechanics injured. Milton's time was two hours, 46 minutes and 52.96 seconds, a new record for the distance.

**SOUTHLAND WINS
MOTOR HONORS**

**Criticism From North Met
by Auto Club; Roads
Here Are Best**

Proof that Southern California has achieved honors long striven for by other sections of America, namely, to be the motoring paradise of the world, has just been accorded the Automobile Club of Southern California.

According to club officials this section of the state has lately been the subject of much good-natured comment in the press of the northern counties for its activity in promoting the interests of motorists who visit here from the east and from Oregon and Washington.

In some instances, it is stated, the northern press has gone so far as to point out that perhaps Southern California has misrepresented facts in regard to the condition of transcontinental routes leading across Utah into northern California.

Club Issues Denial

The auto club has hastened to meet the kindly intended criticism with a denial that in any instance has the organization issued road information contrary to the actual conditions of highways leading westward across the continent, and has consistently maintained road crews on all highways both summer and winter so that its information may be correct and fair to all concerned, working only in the behalf of the touring public.

Greater good for the entire state is seen by the club in the awakening of the northern counties to the need of improved road conditions commensurate with the southern counties, and for the widespread dissemination of news regarding the touring facilities of local highway systems. It is pointed out by the club touring bureau that what is good for one geographical section of the state is good for all, and particular pride is expressed in the activity of the southern counties in letting their light so shine that all the world has come to know about them.

New Tire Invented

An automobile tire, invented in England, is made of solid rubber, having three deep air chambers cut into it from the side against the wheel rim.

The State Highway department of Pennsylvania has more than 10,777 miles of road under its jurisdiction, of which more than 5000 miles are improved highways.

**TOURED FRANCE;
SAYS ROADS BAD**

**Pasadena Man Writes Auto
Club of Experiences;
Took Own Car**

Money is fluctuating in value so much in Europe that it is discouraging business, says A. M. Drake, of 1270 Hillcrest avenue, Oak Knoll, Pasadena, who has been making an automobile tour abroad this summer. Mr. Drake has written of some of his experiences in a letter to H. A. Martin, manager of the Pasadena office of the Automobile Club of Southern California. Mr. Drake will not return until some time in October.

"Financial conditions in Europe are not good," adds Mr. Drake. He wrote from Aix-les-Bains, France. He said he had given up the idea of touring Germany "as conditions there are so uncertain and there is too much red tape and charges of all kinds to gouse Americans."

As he wrote, Mr. Drake, who took his own good American car with him abroad, was planning to leave Aix-les-Bains for Chamoux and the Italian lakes. "As one has to have baggage inspected before leaving a country now as well as when entering," says the letter, "and we send trunks ahead by train, we have to hit the railroad custom houses as well as the wagon road custom houses, which is a nuisance, especially in France and Switzerland, where they have a neutral zone and a double line of custom houses."

Motored in France
Mr. Drake has been motoring through southern France. He spent some time in the Pyrenees, near the Spanish border, and then motored east, via Grenoble to Aix-les-Bains and Lake Geneva. "There are endless beautiful day excursions about here, with the finest kind of scenery," he wrote.

In France Mr. Drake sought roads other than the main-traveled ones. "Since the war," his letter says, "the country people all use wooden soled shoes which leave big tacks in the roads and are just big enough to go through tire casings at times. We make special efforts to keep off the big direct roads, which are terribly dusty and not in as good condition as the little roads, as a rule. And we usually get finer scenery over the little roads."

Mr. Drake said he was glad he took his American car with him, as most of the cars in Europe are rebuilt from the pre-war era and exorbitant rents are asked for them. "The French cars are all light powered because of the luxury tax based on horse-power," he says, "and are very heavy. Very few have starters, most of them being pre-war rebuilds. They are rough riders and heavy gas consumers. Gears have to be shifted for little grades. We run all around them on the grades."

Give Up Licenses
Owners of motor vehicles or motorcycles crossing the Canadian border for a period of not longer than 24 hours are required to surrender their state licenses, which are returned to them as they leave Canada.

There are 10,412,688 motor vehicles in the United States, or one machine for every 10,152 persons.

**AUTO SALES FOR
STATE CLIMBING**

**Figures Show Southland Is
In Lead Again; August
Was Good Month**

California, during August, with a sales of 13,893 passenger cars, according to figures which appear over the September issue of Motor Registration News, published in Oakland, came within 287 cars of equalling its record month automobile business transacted in June of this year, which reached the huge total of 14,180.

The August volume exceeded that of July by 882 cars, a sum great enough to lead Motor News publishers to believe that the motor car industry is again on an upward trend and that there is a possibility of September business surpassing even the high June mark.

The aggregate sales for the month just closed were greater by 4398 cars than a comparison for August of 1921. Reduced to percentages the August, 1922, gain is equivalent to 45 per cent over the same month of last year.

Southern California retains its lead over the northern section of the state, the figures reading, 7515 for the south compared to 6378 for the north. Southern California gained 2131 car sales over August, 1921, or an increase of 40 per cent. Northern California disposed of 2267 more automobiles than it did in 1921. Its gain amounted to 55 per cent.

Leading Counties
Equally interesting in Motor Registration News statistics is the fact that the leading five counties of the state in the order named, Los Angeles, San Francisco, Alameda, Fresno and San Diego counties, recorded the largest single month's business they have ever had in automobile annals, beating their former high figures of June this year.

Fresno county showed the largest percentage gain for August, jumping to 667 sales in contrast with 223 in August, 1921. The raisin center advanced 186 per cent. San Diego county is credited with a 71 per cent increase, the ratio being 270 sales in August, 1921, to 464 sales, August, 1922.

Alameda county booked a 54 per cent gain, going from 609 to 938 sales.

Los Angeles Leads
San Francisco county boosted its business just a shade more than 50 per cent, the figures in this instance being 850 sales in August, 1921, and 1279 during last month.

In total volume, Los Angeles county leads all other counties by a wide margin, having a mark of 5457, a sum more than twice as great as the two next counties combined. Los Angeles gained 42 per cent over its 3906 total of August, 1921.

All of the leading southern counties as well as most of the larger northern counties, have registered substantial increases over the comparative month a year ago.

Helpful Hint

When a nut cannot be removed with an ordinary wrench, heat the wrench and allow it to remain on the nut for a period. The nut can then be removed without much trouble, as the heat will expand it before the bolt to which it is secured is warmed.

BACKFIRING DANGER

An automobile will catch fire more quickly from backfiring than from any other cause. Too lean a mixture fed to the cylinders will produce a sheet of flame from the air intake of the carburetor.

Airplanes were used recently for a rush call, to transport automobile parts from Dayton, Ohio, to Oshawa, Canada.

Large Tire Output

Official figures show that during March, 1921, a total of 1,163,090 tires were made in this country, while unofficial but reliable estimates indicate that during March, 1922, the production of tires in Akron, O., alone, exceeded 1,500,000.

MUCH FARM PRODUCTS

According to the United States bureau of market crops estimates, over 150,000,000 tons of farm products are carried over the roads to the railroads, while, in addition, thousands of tons are carried directly to market points.

The church at Seneca Falls, N. Y., where the first women's rights convention met in 1848, is now used as a garage.

**DODGE BROTHERS
MOTOR CAR**

**AN APPRECIATION
AND A PLEDGE**

Dodge Brothers have made me their dealer for the Glendale-Burbank District. I interpret this appointment as a high honor and a serious responsibility.

Californians have come to look upon Dodge Brothers as manufacturers of a high order of integrity.

This district, in particular, has evidenced implicit confidence in their honesty of purpose—and a marked preference for their product.

Five years' association with Dodge Brothers has taught me that they, in turn, require that their representatives shall scrupulously protect the confidence reposed in them by the public.

My one aim and ambition will be to reflect in my own organization the high regard in which they and their cars are held all over America.

R. E. CORRIGAN
Dealer
Brand and Harvard
Glendale, Calif.

**SPECIAL-SIX
SEDAN**

Studebaker
\$2050

THE Studebaker Special-Six Sedan will win your admiration at first glance. After you have examined it you will be even more delighted with it. When you have ridden in it you won't be satisfied with anything else.

The market does not offer a more beautiful enclosed body. Certainly none is built of better materials and finer workmanship. It is a striking example of the handicraft of Studebaker artisans.

Everything is in exquisite taste. Its distinctive body lines are enhanced by massive headlights, the graceful cowl lamps and the courtesy light just above the running board on the driver's side, which illuminates the roadway in passing other cars at night.

Inside, the inviting depth of the cushions, the subdued harmony of upholstery, the soft carpeting and the completeness of appointments offer an irresistible appeal.

It is mounted on the same Special-Six chassis which has won the enthusiasm of thousands of owners for its dependable performance, power, comfort and economy in fuel and tires.

The Studebaker Special-Six Sedan offers the utmost closed car refinement—and at moderate cost. At the new low price of \$2050 it represents the greatest closed car value that Studebaker ever offered.

The name Studebaker is your assurance of satisfaction.

Four doors that swing wide open; simple, automatic window lifts raise or lower plate glass windows; palecent corner lights; massive headlights; artistic coach lamps; courtesy light; cowl ventilator; windshield wiper and rain visor; jeweled light-day clock; exhaust heater; thief-proof transmission lock.

VIBRATION TAKEN OUT OF MAXWELL

Lyman P. Clark Tells Why Classy Car Proves So Popular With Public

"In designing motor cars, one of the big problems the engineers have had to overcome, is the elimination of vibration. This has been successfully accomplished in the new series Maxwell cars," says Lyman P. Clark of the Glendale Motor Car Company, 124 West Colorado street.

"The new Maxwell is equipped with an unusually large crankshaft, which has three main bearings, and the oil lubricating the main and connecting rod bearings is forced through the center of the crankshaft, providing positive lubrication for all of the bearings, in addition to the splash system," he continued.

"The center bearing takes all whip out of the crankshaft, and as the flywheel, crankshaft, connecting rods and pistons are each balanced separately, then balanced after being assembled, all motor vibration has been done away with entirely.

"With the positive system of lubrication used on the Maxwell car, oil is furnished to every bearing, under pressure, regardless of the position in which the car is being operated.

"The hollow crankshaft and pressure lubricating system are some of the many features of the new Maxwell that are found only on motor cars in a very much higher price class," concluded Mr. Clark.

CLOSED CAR WINS PUBLIC APPROVAL

Hupmobile Agency Receives Many Inquiries, Declares Lanier Bartlett

The closed car models are in increasing demand, according to Lanier Bartlett, of Bartlett & French, Glendale Hupmobile agency, 107 East Colorado street.

A large number of inquiries have recently been received by the agency from local people in regard to the closed cars. According to Mr. Bartlett, the enclosed Hupmobile models are: Hupmobile roadster-coupe, Hupmobile five-passenger sedan and Hupmobile four-passenger coupe.

The big demand, however, has always been for the touring models up to the present time, it is stated.

The Hupp Motor Car Corporation at Detroit, Mich., have been behind in deliveries for some time, and are only now beginning to catch up, according to Mr. Bartlett.

Following the price drop early in August, when the price in Glendale dropped from \$1465 to \$1350, the factory was literally swamped with orders, it is announced.

The selling points of the Hupmobile have always been economy and long life, it is stated.

CHEVROLET HOME OPENS AT NIGHT

New Headquarters Complete In Every Detail; Sales So Far In Month 51

The new home of the Chevrolet in Glendale, C. L. Smith, agent, Colorado at Orange, is now completed, it is announced.

According to H. W. Smith, manager of the agency, there are two salesmen on the job each night. A large number of Glendale folk are availing themselves of this opportunity to inspect the Chevrolet, it is announced, it being a chance for the entire family to inspect the various models.

That the Chevrolet is a favorite locally is attested by the fact that fifty-one cars have been sold for the month, up to Friday, it is announced.

Service is another important feature of the local organization, according to Manager Smith. Joe Murphy, formerly superintendent of the Chevrolet branch in Los Angeles, is superintendent in charge of service. Mr. Murphy has been with the Chevrolet organization for seven years, part of that time at the factory at Flint, Mich.

The Chevrolet utility coupe is meeting with hearty approval, according to Mr. Smith. Twenty of them were recently purchased by the Ajax Rubber company, in New York City. Several interviews with F. M. Hoblitt, general sales manager of the Ajax company, disclosed the fact that the cars were entirely satisfactory. It is probable that the entire force of sales representatives will be equipped with these Chevrolets.

Five utility coupes were delivered recently to the Los Angeles representatives of this dealer's organization.

R. E. CORRIGAN IS NEW DODGE AGENT

Takes Over Business From George Clayton; Praises Glendale Field

R. E. Corrigan is the new Dodge Brothers dealer for Glendale. Mr. Corrigan is just taking over the business of George Clayton, at 145 South Brand boulevard.

Mr. Corrigan is Dodge Brothers factory man, having been western representative for several years. During that time he has traveled California, Arizona, Nevada and parts of Oregon, doing special work for the factory.

"I picked Glendale," says Mr. Corrigan, "because I have studied the local conditions and firmly believe that Glendale and the Dodge Brothers motor cars are good friends."

He is not alone in his liking the city, for his folks are going to move to Glendale also, he says. They are living in Michigan, but after spending a summer here, they decided to return and make this their home.

Particular Service
It is announced that in addition to securing new business the new organization will pay particular attention to service. They will remain in the same location temporarily, it is announced.

The Dodge Brothers factory has 26,600 orders on hand for cars at the present time, according to Mr. Corrigan. The rail situation, the recent change in body design and the addition of the new all-steel business coupe and sedan has caused the present shortage. Shipments are expected in at any time now, and the factory is gradually getting ahead of the orders, according to Mr. Corrigan.

PROVIDES PLACE TO LAND PLANES

Sparr Heights Prepares for Aerial Passenger Traffic, Says Management

"In our comprehensive plan of development we propose to make provision for an airplane landing place," says H. E. Barnum of the Francis-Barnum-Walters firm who have just opened up Sparr Heights—the 1500-acre residential tract on either side of Verdugo Road between Verdugo Woodlands and Montrose.

"It has been recently authoritatively announced that within the next five years aerial passenger traffic will be developed to the point where one can ride at the rate of 6 cents per mile. And with the perfection of aerial transportation there will be no necessity for living in the midst of the city's noise.

Provides Opportunity
"It was with a recognition of this fact that our syndicate purchased the Sparr estate. Its diversified terrain, consisting as it does of canyons, knolls, mesas, promontories and mountain slopes, afford an unrivaled opportunity for working out our plan of making this one of the most beautiful subdivisions in the country, considered on the basis of architectural and landscaping effects. We feel therefore, we must be prepared for any future development along the lines of aerial transportation and when it arrives we will be ready for it."

In Japan, the annual tax for automobiles ranges from \$400 on the cheapest cars to \$1500 on ones of higher class.

A DOZEN REASONS FOR THE NEW REO

FRAME—Side members, two-thirds of a foot in depth, add strength and rigidity.

DISTRIBUTOR—Now located on the left side of motor, in more accessible position.

LOWER CHASSIS—New rear spring suspension adds strength and appearance.

TRAFFIC FENDERS—Built for city life—they are good to look at both "Before and After."

ROAD LAMPS—Add to good looks; are easier to clean and dust and are stronger.

THROTTLE AND REST—Improved lever and rest add to comfort and convenience.

HORN BUTTON—Now located on top of steering column on all REO models.

75-MILE SPEEDOMETER—Free from noise and provides a range for the increased speed capacity of the new REO.

ENCLOSED MODEL IMPROVEMENTS—Doors of new Sedan are hung to permit easy transfer of passengers between front and rear compartments.

NEW WALNUT STEERING WHEEL—Enclosed model now fitted with spider steering wheel.

ADDITIONS—Quality and numerous refinements built into the chassis and coach work, providing greater utility and comfort in the new REO.

OMISSIONS—No dollars have been added to the price of this latest REO.

Trade in Your Old Car — We Will Take It

STORY OF NORTH HAS NEW THRILL

T. D. L. Theatre Is Showing James Oliver Curwood Feature Film

With the great out-of-doors of the Canadian Rockies as the picturesque background and one of James Oliver Curwood's thrilling stories for the human interest, "The Valley of Silent Men," feature film at the T. D. L. theatre is proving most popular with the theater patrons.

It is a story of the Royal Northwest Mounted Police, baring the souls of five men and a woman, who are isolated in a little narrow valley.

The feature for Sunday will be "On the High Seas," with Jack Holt and Dorothy Dalton in the leads. It is a sea story and is said to be the finest offering of these two favorite stars.

M'ADOO SECURED FOR LOCAL MEET

To Address Evening C. of C. Gathering This Winter, Is Word Received

The Glendale Chamber of Commerce has received assurance from William G. McAdoo, former secretary of the treasury, that he will speak in Glendale at a meeting of that organization some time during the coming winter.

It is probable that Mr. McAdoo will address one of the evening meetings, held once a month by the local chamber, according to E. F. Saunders, the assistant secretary.

In replying to the invitation to speak here, Mr. McAdoo said: "During the coming winter I shall be glad to try to run out to Glendale if you want me."

"We want him," declares Mr. Saunders, "so I guess that means he is coming."

INCREASE SALES WITH PRICE CUT

Willys-Knight and Overland Big Values, Declared by George T. Smith

The new price schedule for Willys-Knight and Overland automobiles that went into effect last Monday, have caused a rush of buyers for these cars, according to George T. Smith, the local dealer, 228 South Brand boulevard.

Both cars were big values for the money before the prices were lowered," said Mr. Smith today, "so they are surely good values now."

Exactly twelve cars were sold during the present week, up to Friday noon, it is announced, and there is a probability that the sales will have increased still further before Sunday.

Upon the arrival of a new shipment of Willys-Knights this week, Mr. Smith took pains that everyone in town should have a chance to know of their arrival. The cars were driven up and down Brand boulevard, with a band leading the procession.

The new prices, delivered to Glendale folk, are as follows:

Willys-Knight: Five-passenger touring, \$1455; three-passenger roadster, \$1455; four-passenger coupe, \$2075; five-passenger sedan, \$2235; chassis, \$1340; seven-passenger touring, \$1675; seven-passenger sedan, \$2495.

Overland: Five-passenger touring, \$666; three-passenger roadster, \$666; three-passenger coupe, \$960; five-passenger sedan, \$1050; chassis, \$545.

NEW STUDEBAKER TO BANKER HERE

Dan Campbell Relates When First 'One-Lunger' Was Seen In Glendale

Dan Campbell, of the Glendale National bank, has just taken delivery of a new special six Studebaker from the Packer Auto company, Colorado at Brand boulevard.

Before purchasing his Studebaker Mr. Campbell made a thorough study of the different merits of the various high-grade cars now on the market. This is his first Studebaker, according to Don H. Packer.

In purchasing his new Studebaker, Mr. Campbell recalled the first automobile which he saw in Glendale. It was an early model, commonly known as a "one-lunger" and was the property of L. C. Brand, who later sold it to another Glendale man.

Mr. Campbell told how Mr. Brand would leave his car at the foot of Kenmore road, because he couldn't make the grade up to his home.

Mr. Packer's father, mother and sister, and his mother's sister, Mrs. M. H. Rogers, have just made a trip to Arrowhead lake in a Studebaker big six. The trip was a continuation of one started about a month ago when the party met with an accident before getting to their destination.

According to a card just received, they made the trip in fine shape, without difficulty of any kind.

TAKE TRAVEL CENSUS BAKERSFIELD—According to W. E. Snell, captain of the Kern county traffic squad, a national census is being taken of all classes of vehicles in order to determine the amount of weight and travel that is passing over the state highways.

Snell states that the census is being taken in each county in California and the vehicles in question include trucks, passenger cars, trailers, busses and horse vehicles.

In each instance the name of the car, its weight and many other details concerning the vehicle will be recorded upon the census blanks.

An average of 20,000 passenger automobiles in Philadelphia, Pa., enter New Jersey every weekend en route to seashore resorts.

COMMENT THAT'S ALL

Metropolitan Sewerage Note the Auto Market Flood of Gold Coming Foretelling Conditions

By Gil A. Cowan

A DAY seldom passes without some civic issue being discussed. Right now the sewer problem is coming in for a great deal of talk which may result in something worth while to this community.

However, Glendale must remember that a metropolitan sewerage disposal district offers the only final solution, for in that the one question is handled exclusively by the cities concerned—not by any one city's administration.

In time past Los Angeles has been unable to serve sections with sewerage and only recently has it voted bonds to rectify some of its most tragic conditions. The \$12,000,000 issue is a mere bagatelle, you must realize, insofar as the total amount is necessary to solve the problems of Los Angeles, Glendale, Burbank, Eagle Rock and other smaller cities.

Engineers admit that a metropolitan district—not annexation of more territory by Los Angeles—is the real answer to their problems and it behooves those Glendale people who are interesting themselves in the subject to consider the question from that viewpoint.

Today is "automobile day" with The Evening News, and it is good to report that the dealers are selling almost every car they can lay hands on.

Not only are the showroom floors stripped in many instances, but the used car market is keen and it is a question if you will be able to get just what you want without ordering right now.

Of course, another month will find a slack season starting in the northern states automobile market, but California each winter absorbs nearly 50 per cent of the production of the factories with the exception of one or two of the more popular makes.

If you are a subject to auto suggestion, let it be suggested that you shop around a bit and give the dealers a chance to serve you with a new machine at the earliest possible moment.

On two other pages of tonight's paper you will find entreaties to "build now."

That is another thing worthy of your earnest consideration, for in building now you will reap the advantage of being well housed this winter, free from the landlord's grip when tourists arrive and are willing to pay any price to be housed.

From all indications more people will come to Southern California this fall and winter than ever before. And they will be the well-to-do type, too, much different from those who hurried here to enjoy the great prosperity of this region.

More money will be spent this coming season than Glendale and the Southland has ever seen before, if I am not mistaken in the trend of affairs.

Some of you folks may wonder, "Where does he get that stuff?"

Well, there are tricks to every trade and the matter of predictions it takes an ear pretty close to the ground, eyes open wide, a lot of nosing around and a little mental equation.

In speaking with a prominent civil engineer here the other day he informed me that he had thirty men now working on various projects, with a shortage of engineering talent. In looking over the shoulders of builders and contractors I have noted plans for business structures, factories and many fine homes.

Glancing at the list of property transfers, analyzing the class of newcomers, watching the bank clearances, talking with the big business men—all enables a person to say without fear of contradiction that "straight ahead" the road is clear for bigger things than ever before.

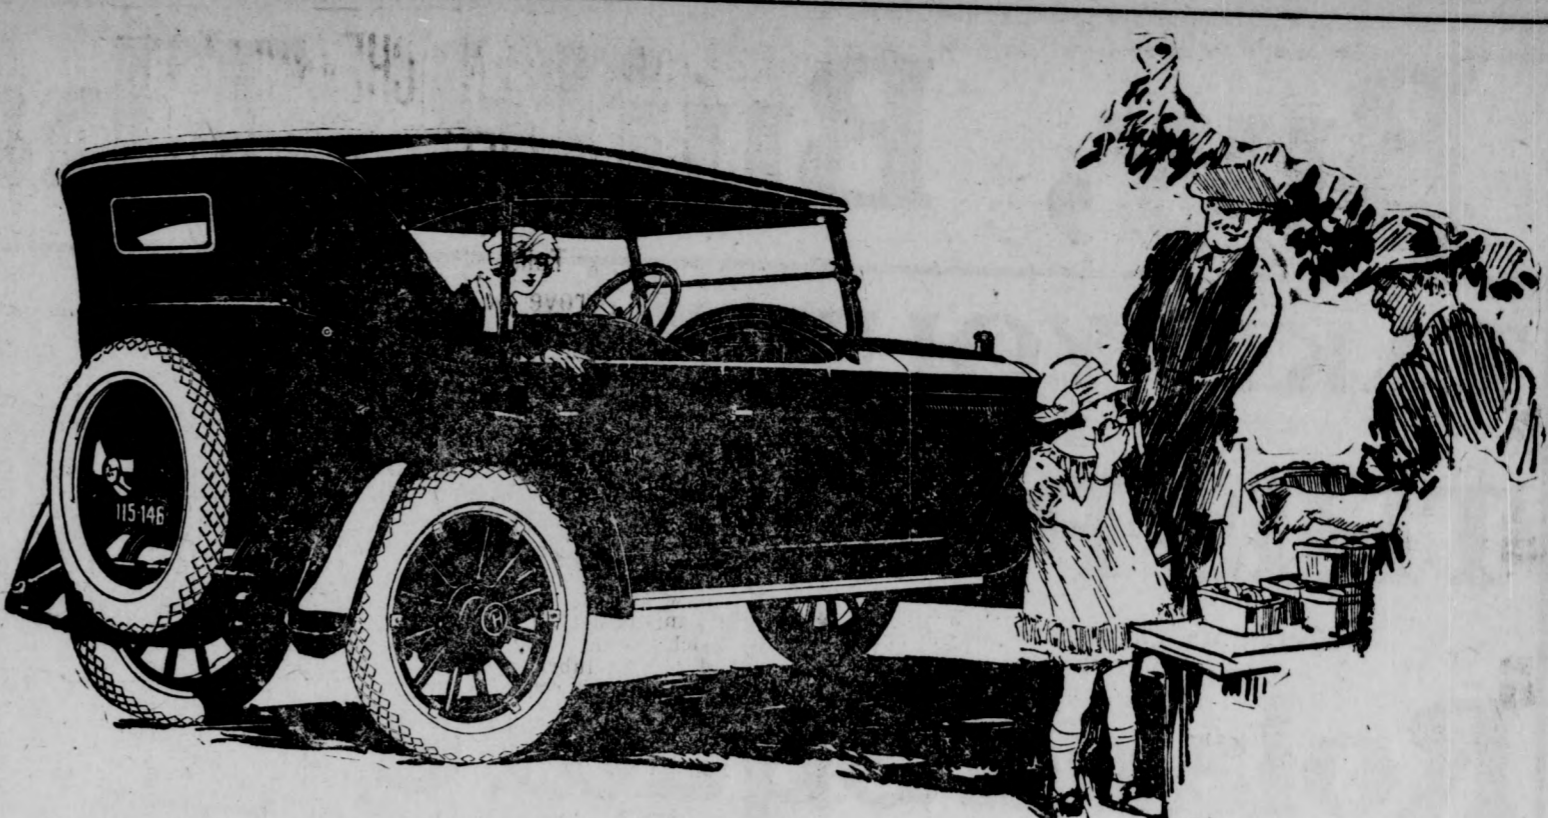

Bearing out the foregoing views the Southwest Builder and Contractor of current issue says:

"Commenting on the remarkable building activity in Los Angeles, Engineering & Contracting of Chicago, says: 'The boom in Los Angeles is largely attributed, we think, to a great advertising campaign. The organ of real estate men, contractors and bankers has been Own Your Own Home. Freedom from labor troubles has also contributed greatly to the Los Angeles boom. In fact that city is an example of what can be accomplished under industrial freedom when energetic business men are at the helm.'"

"Engineering & Contracting has the popular view of the Los Angeles building boom. Most people in the east attribute the city's progress wholly to advertising. Los Angeles is a good advertiser, everyone will admit, and her advertising has been fruitful because she has something to advertise. But her present prosperity is basic and the building boom is on a reflection. Los Angeles derives her prosperity from agriculture and her tributary territory comprises one of the richest agricultural sections of the country. Due to the organization of the producers of Southern California's leading crops prosperity of this industry has not been hard hit as in other sections of the country and prosperous agricultural communities have therefore contributed to keep Los Angeles prosperous."

In Cairo, Egypt, there is a registration of 2200 passenger automobiles, 308 taxis and 110 motor trucks.

The tax per horse-power is \$5 for motor vehicles in England.

Its Thorough Goodness A Source of Comfort to Owners

The truth is that all the other vital parts of the Hupmobile are just as exceptional, in their way, as its wonderful motor. As long as the motor functions—and everyone knows it does function for years—just so long does the frame, for example, retain its sturdy, rigid strength. Just so long, also, do the front axle, the heavy steering pivots, the steering gear, the driving pinion and ring gear, the propeller shaft, the wheels and wheel bearings, and so on, faithfully perform their duties. There is no one outstanding virtue in Hupmobile construction. All essential parts work together with the same long-lived, repair-proof dependability for which the Hupmobile is so well known. It is precisely this remarkable ability to stand up in day after day service that makes Hupmobile ownership an undiluted comfort, and a substantial source of saving. 6-CYLINDER 50-HORSEPOWER

The six-cylinder motor of the Jewett is a development from the Paige 6-44 motor that proved its worth in thousands of Paige cars everywhere.

Last year you paid \$1795 for a five-passenger touring car powered with this 6-44 motor—and it was then an outstanding value in the competitive field.

Now, with many refinements and the addition of force feed oiling, this superb power plant is the heart of the Jewett at \$1195, F. O. B. Glendale.

With these facts before you, you can plainly understand why this car has broken every Paige sales record and established itself as a leader in the five-passenger field.

NEW BUICK FOUR PROVING POPULAR

Entire Line of Buicks, In Fact, Win Public Favor, Says Ray L. Galvin

The new Buick four touring sedan, on display at the salesrooms of Tanner & Hall, 237 South Brand boulevard, is receiving quite a bit of favorable comment from Glendale folk, according to Ray L. Galvin of that company.

The entire line of Buick 1923 models, as recently announced, are big improvements in an already popular car, according to Mr. Galvin. In speaking of the new models he said:

"Year after year Buick engineers have carried on their research and experimental work. Each season has seen the benefits of their ceaseless efforts reflected in the improved quality and character of Buick cars.

"No single season in recent years has seen so many improvements in Buick cars as the present one; and never has the line been so complete."

All of these changes are well-considered and have their origin in sound engineering, according to Mr. Galvin. Continuing, he said: "The engine, for example, is fitted with longer pistons and connecting rods, adding to the smoothness and long wear for which the Buick engine has long been noted.

"A new rear spring suspension has been devised, which is undoubtedly the highest development of the cantilever type yet achieved. The frame, the trans-axle, the rear axle, the brakes, the bodies and their equipment, each shows the hand of the skilled designer by some new and valuable features."

"IDEAL SECTION" The "ideal section" of the Lincoln Highway, now under construction in Lake county, Indiana, will cost \$100,000 a mile, according to information received by O. R. Fuller, president of the White Auto company. The road will be 40 feet wide, constructed of 10-inch reinforced concrete, and capable of carrying a traffic of 20,000 vehicles every 24-hour day.

The tax per horse-power is \$5 for motor vehicles in England.

PLANS FIGHT ON GAS BANDITS

Huge Sum of Money Taken From Motorists by Use of Short Measure

NEW YORK.—The short-measure gasoline artist must go.

This form of holdup, the delivery of less gas than is paid for, has reached such proportions throughout the United States that it can be stopped only by intensive and concerted action and by taking radical steps. The National Motorists' association has set itself to the task of remedying this evil.

Recent tests with fraud-detecting devices, carefully made under official auspices, principally in Cleveland, Louisville and Kansas City, Mo., by representatives of automobile clubs affiliated with the N. M. A., developed the astounding fact that out of a number of purchases of gas in five-gallon lots there was a shortage running from one to three pints each in more than 50 per cent of tests made.

It is estimated that each of the 10,000,000 motorists of the United States buys two gallons of gas a day, making a total of 20,000,000 sold. On the basis of a shortage of two pints to every five gallons, this would mean that fleecing is going on daily to the tune of 1,000,000 gallons. Fixing an average rate of 25 cents for the products, this shortage, if reduced to terms of money, would represent a loss to the motoring public of \$250,000 per day or \$90,000,000 a year, which is more money than is now appropriated annually by the federal government for good roads.

No evidence has been found that the fraud is countenanced by the oil companies and, in fact, offers of assistance are being received from such companies.

Pumps Fight Fire High speed turbine pumps have been designed to be mounted on passenger automobiles and operated by their motors to enable them to be used as fire engines.

Members of the Police Department of Rio de Janeiro, Brazil, are being supplied with motorcycles.

Insures Perfect Comfort---

—For touring this Fall, driving on the boulevard, or slipping along a country road in the hazy sunshine of an Indian Summer, the smart new BUICK Touring car or Sedan offers a degree of comfort that cannot be surpassed.

—Long and low in appearance, it affords perfect riding ease and comfort. Its well-knit chassis, new cantilever springs and strong frame take up the jars and jolts of a country road.

—Among the many new Buick 1923 Models you are sure to find a car to please you.

ANNOUNCING THE OPENING OF

10th UNIT of FAIRVIEW

Lots 50x150 --- \$675 to \$875
\$50.00 Cash, \$15.00 per Month

Our 9th Unit being nearly sold, we are about to open the 10th Unit, which is the only piece of property we have ever offered with trees on it. Beautiful pine trees adorn the east edge of the Tract, all the way from Fourth street to Glenwood road. It is a choice piece of property and recognizing this fact, we have cut it into 50-ft. lots, but are selling on approximately the same terms that have made all of our previous tracts so popular. It lies between Fourth street and Glenwood road, with Alameda street on the east and Valencia street on the west. Although we have not been offering these lots, a dozen or more reservations have already been made, which is evidence of its desirability. Come out and see it today or Sunday. Drive out San Fernando road to the Moreland Factory, then one block north to tract office, 4th and Alameda.

Diet and Health

By Lulu Hunt Peters, M.D.
Author of "Diet and Health, with Key to the Calories"

ANSWERS TO CORRESPONDENTS

Mr. G. T.—Probably your teeth, which you say are very poor, are causing your tongue to have that burning sensation. You say you are 20 pounds over-weight and nervous. Twenty pounds over weight is enough to make any one nervous. Do you know how to reduce it and reduce it without starving yourself to death and without discomfort? If you don't, send a self-addressed envelope and four cents in stamps and we will initiate you in our class of F. F. F.'s. Smoking too much may cause the burning tongue also.

C. T.—I believe that condition that you speak of—the trembling hands at your age and the perfect condition of your health, which you need not worry about, in the least. If it does not cease, however, go to a nerve specialist and see what he says about it. Perhaps if you reduce that 20 pounds overweight you complain of, it may cease. Do at least 15 minutes good active setting-up exercises every day.

Mrs. S.—I should judge your constipation is due to under-eating. Gradually increase your calories until you are getting the amount you should and include among them fresh vegetables, whole wheat grains or bread, honey and molasses instead of sugar. We have just written an article on constipation. You can have it by sending me a self-addressed and stamped envelope, in care of this paper.

Miss Helen.—Send a self-addressed, stamped envelope and re-state your request.

S. R.—Eat, man, eat—and stop worrying about your condition. Repeat the Coue formula, "Day by day, in every way, I am getting better and better," night and morning, and accompany that by gradually increasing your calories of wholesome foods and you will gain. Believe your physician who said there was nothing physically wrong with you. Send a self-addressed envelope and four cents in stamps for our advice on how to gain.

Mrs. C. M.—You say you have

reduced about 25 pounds and that you now weigh 150 pounds but your normal weight should be 130. You have had severe laryngitis and you look drawn and pale. I rather think your ill looks are due to your laryngitis rather than to your reducing. Are you including some physical exercise in your reducing program? You should. Begin very gradually and increase very gradually at your age—or at any age, for that matter. For your further reduction I should reduce less than a pound a week if I were you.

M. L.—Send a self-addressed envelope and four cents in stamps repeating your request for the instruction on reducing.

Madam X. X. X.—If you have no symptoms at all between your periods and are in the perfect health you say you are, I think the little irregularity that you complain of at the onset of your menstruation is nothing to worry about at all. I have heard of similar cases in perfectly normal individuals. If you are in doubt, you had better have a thorough examination by a specialist.

Boy.—Why should you want to confine your diet to bran, grape-nuts and milk? How much of these would be required to keep up nourishment would depend upon your activities and your age. But you should have many other foods besides these. Especially, the green vegetables and fruits.

According to Sherman, the foods highest in vitamin A—the growth-promoting and prevention of eye inflammation vitamins—are milk, butter, cream, egg yolk, spinach, tomatoes (raw or canned), carrots, lettuce, peas, potatoes, whole wheat bread. The highest in vitamin B—or the anti-neurotic vitamin—are spinach, tomatoes (raw or canned), beans, cabbage, and other green vegetables, oranges, grapefruit, lemons, milk and cream. The highest in vitamin C—the antiscorbutic vitamin—are oranges, lemons, raspberries, tomatoes (raw or canned), cabbage, carrots, lettuce, potatoes. You should have a good supply of these vitamins. We will write more on this subject soon.

BEAUTY CHATS

EDNA KENT FORBES

In Thursday's "Chat" I spoke of the boudoir cap as worn by a number of women who, because of the great convenience of slipping a cap over an uncombed head, have formed a habit of wearing a cap in the house many hours of the day.

This does not mean there is any objection to wearing a cap, for a head had better be covered with a cap any time than to appear disheveled or full of hair curlers. Caps are only in bad taste when they are not suited to their needs. For instance, a sheer cap made of net or other transparent materials, trimmed with frilly lace ruffles and satin bows or the all satin, or any of the other fanciful mixtures of lace, satin and embroidery, which constitutes what is known as the "boudoir cap," should never be worn except with a negligee. In such combination it is part of, and should be made to go with the negligee. It has no other use.

The cap that is suited to wear while working through the house is one like the Dutch plain, very quaint and becoming to every type of face, either young or old. It is an honest cap and stands for utility; its simplicity amounts to perfection when we consider lines and suitability for use. A gingham or other washable dress and such a cap are perfectly combined.

The fussy cap becomes begrabbled as soon as it is associated with such work as dusting and

Book Reviews

"Stubble" is the title of a first novel by George Looms, a young Kentuckian, published by Doubleday, Page & Co. It is a protest of bewildered youth against the monotonous routine of modern business life that, according to the author, regulates human aspirations and ambitions by the eternal alarm clock. The book is the story of Joe Hooper, who vaguely resents the distasteful routine of an uninteresting job, the monotonous office from nine to five, the inhibitions of circumstances that prevent him from living deeply, feeling deeply or loving deeply. He rebels inarticulately against the drudgery of just existing from one day to the next. It is also the story of Mary Louise, whose life is also "stubble." In a curious way, it parallels Joe's. They love each other, but not grandly, not passionately—even in love they are not able to reach the heights. Their drama is played in the setting of a Ken-

It's A Fact

TO COVER CABLES
An electrically operated machine has been invented that moves along wire cables, and covers them with tarred twine about as fast as twelve men could do the work by hand.

TO MINE OR QUARRY
For mining coal or quarrying rock without blasting an Englishman has invented hydraulically operated telescoping rams to be inserted into the material to be removed.

BRAZIL'S HUGE RESERVOIR
Brazil is planning an irrigation reservoir 100 miles long and with an average width exceeding five miles.

ELECTRIC WRENCH
An electric wrench designed for use with automobiles can exert pressures up to 60 pounds and can be used as a power grinder or buffer.

NON-SLIPPING BELT
Of French invention is a belt which is claimed to be proof against slipping, strips of chrome leather being riveted to the underside of its oak tanned leather surface.

Side Talks

by Ruth Cameron

TWO WOMEN

"Or dear, I'm so tired and I've got that two-hour train trip before I can get home and lie down," a woman said to me the other day. "It does seem to me as if I could not stand it."

As I listened to her I thought of another woman who had recently visited me. The second woman had been working very hard up to the last minute when she started on her vacation. The night before she had unexpectedly been obliged to sit up half the night with a sick relative. She had worked at the office in the morning and then started on her vacation.

"You must be dead," I said. "I was pretty tired at noon," she acknowledged, "but I rested on the train coming down."

What a contrast!

One Fretted, One Rested
One looked on the train trip as something unspeakably tiring, the other as a chance to rest. Yet it was exactly the same trip. The difference lay not in the thing itself, but in the two people's reactions to it.

The woman who said: "I rested on the train coming down," is a woman who stands up wonderfully under the trying combination of a responsible office position and a good deal of home care. Plainly it is one of her sources of power. She knows how to rest when she gets a chance, or even half a chance.

When she has a trip like that to make and is tired, she takes off her hat, adjusts herself in a comfortable position, closes her eyes and relaxes. She tells me that she has often fallen asleep like this and arrived at her journey's end much refreshed by the brief loss of consciousness.

Practical Housekeeping

by Florence Austin Chase

SUNDAY DINNER MENU

- Soup Julienne
- Toasted Fingers
- Roasted Chicken
- Brown Gravy
- Sour Grape Jelly
- Fried Hominy
- Baked Tomatoes
- Orange Salad
- Toasted Crackers
- Pineapple Sherbet
- Cafe Noir

Soup Julienne—Heat five cups of soup stock and add to it one and one-half cups vegetables (potatoes, carrots, shredded fine, peas and string beans cut in one-inch lengths); cook until tender and serve with toasted fingers.

Toasted Fingers—Cut soft, stale bread in one-half inch slices. Trim and cut in strips one inch wide. Toast nicely, butter and serve hot.

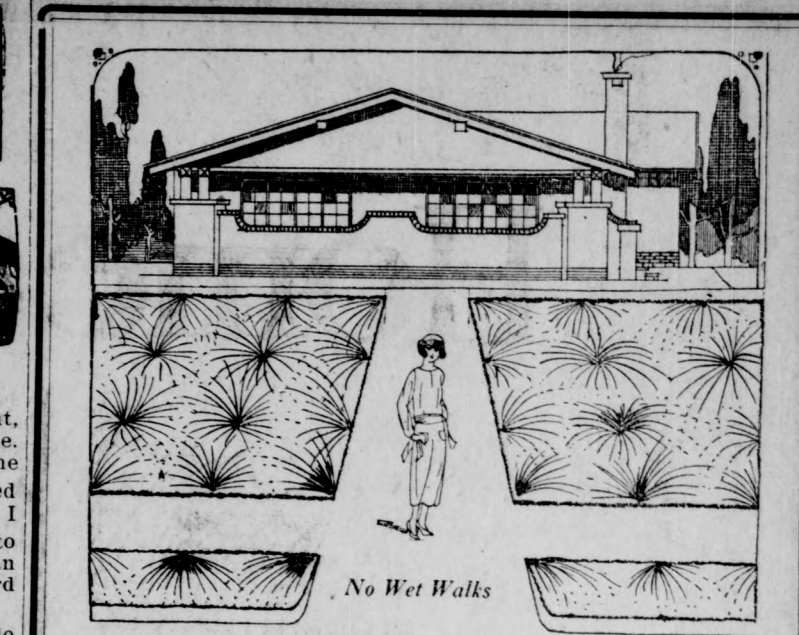

Roasted Chicken—Dress, clean, stuff and truss a chicken. Place on its back on a rack in a dripping pan (or on thin slices of salt pork fat or chicken fat in a pan a trifle larger than the chicken). Rub the entire surface with salt and spread legs and breast with three tablespoons butter or melted chicken fat and three tablespoons flour, which have been blended together. Place in a hot oven and when flour is well browned, reduce the heat and baste every ten minutes if not roasted in self-basting pan. For basting take four tablespoons of the fat in the pan and mix one cup boiling water. A four-pound chicken will require about one and one-half hours.

Fried Hominy—Mix one cup boiling water and one teaspoon salt and add gradually, while stirring constantly, three-fourths cup fine hominy. Bring to the boiling point and let boil two minutes. Then cook in double boiler until water is absorbed. Add one cup of scalded milk, stirring thoroughly, and cook one hour. Turn into a dish and let stand until cold. Take up in pieces on tip of spoon and plunge into deep hot fat; fry until delicately browned and drain on brown paper.

Baked Tomatoes—Wash and skin ripe tomatoes; place them in casserole, or a pudding dish, put on each tomato one-half teaspoon butter, one-fourth teaspoon salt, one-fourth teaspoon pepper and dredge all with flour. Cover the dish closely and bake in a moderate oven from one to a half hour, according to size and ripeness of tomatoes. Remove the cover and bake fifteen minutes. Remove juice and add to it one half cup boiling water and three tablespoons butter blended with two tablespoons flour. Cook until thick and pour over the tomatoes and serve hot in casserole.

Pineapple Sherbet—Boil two cups sugar and four cups water for twenty minutes. Add one and one-half cups grated pineapple, the juice of one lemon and two tablespoons gelatine softened in three tablespoons cold water and then dissolved over hot water. Turn into freezer and freeze, using equal parts ice and rock salt.

Cafe Noir (Black Coffee)—Mix one cup of fine-chopped ground coffee, one tablespoon egg white and one-half cup cold water; mix

Fun

SAY IT WITH FLOWERS
Send:
Blue bells to the hypochondriac.
Wallflowers to the girl who doesn't dance.
Morning glory to the man who can still enjoy an eye opener.
Primroses to the old maid.
Poppy to the young father.
Lady slippers to the man who doesn't keep his dates.
Elderberry to the old church deacon.
Bleeding heart to the jilted party.
Dandelion to the social fop.
Forget-me-not to the man who borrowed five.
Jack-in-the-pulpit to the minister.
Marigold to the girl who made a rich match.
Everlasting to the woman who has been twenty-five for ten years.

DEAR AUNT GETS CUTE
"Aunt, dear, may I present Mr. Peterson? Mr. Peterson was born in the Canary Islands."
"I'm glad to meet you, Mr. Peterson. Perhaps you will sing for us."

INSIDIOUS TROUBLE
"An' how is Patrick, Mrs. Callahan?" asked one of that lady's neighbors. "Poor boy, what do th' doctors say to his loons?"
"He says there's never a thing th' matter wit' Patrick's loons now," replied Mrs. Callahan, "but he ain't denyin' they've got th' lase might ay a tindyney."
"Wurra, wurra, an' is that so now?" exclaimed the neighbor with some deference after a short pause. "An' what might a tindyney be, Mrs. Callahan?"
"A tindyney," responded Mrs. Callahan with solemnity, "is a thing that ain't to be spoken ax lightly. It's where what ain't so already is likely to come on ye unbeknownst at any minute."

SUMMER ACTIVITIES
"How's things at the beach?"
"Man, pretty girls are being rescued in ten inches of water."

THE BEST OF LUCK
"Did your brother have any luck when he was hunting tigers in India, John?"
"Yes, sir, great luck—he never met any."

USE YOUR CREDIT BUILD A HOME NOW
Good credit is the basis of successful business. If you pay your bills your credit is as good as anyone's. Capitalize that credit to build the home you want. Your credit with us is good for 70 per cent of the total cost of your home—lot and house—provided you have the other 30 per cent in a lot, money, or the two together. Only satisfy us of your responsibility and you can have the loan at once—and 10 years to repay.

Security Plan—with a capitalization of \$2,000,000 back of it—is designed for those who want to build a home for themselves. And Security Service takes all the troubles of home building off your hands.

LIFE IS TOO SHORT

—to spend even a small portion of it, doing the family wash—let us help you to eliminate the dread of wash-day.

This Laundry is equipped to do the highest grade laundry work. With the REFINITE SOFT WATER SYSTEM, we produce and use a soft neutral water, which gives longer life to your linen, because it makes the use of harsh sodas and chemicals unnecessary in order to take out the dirt.

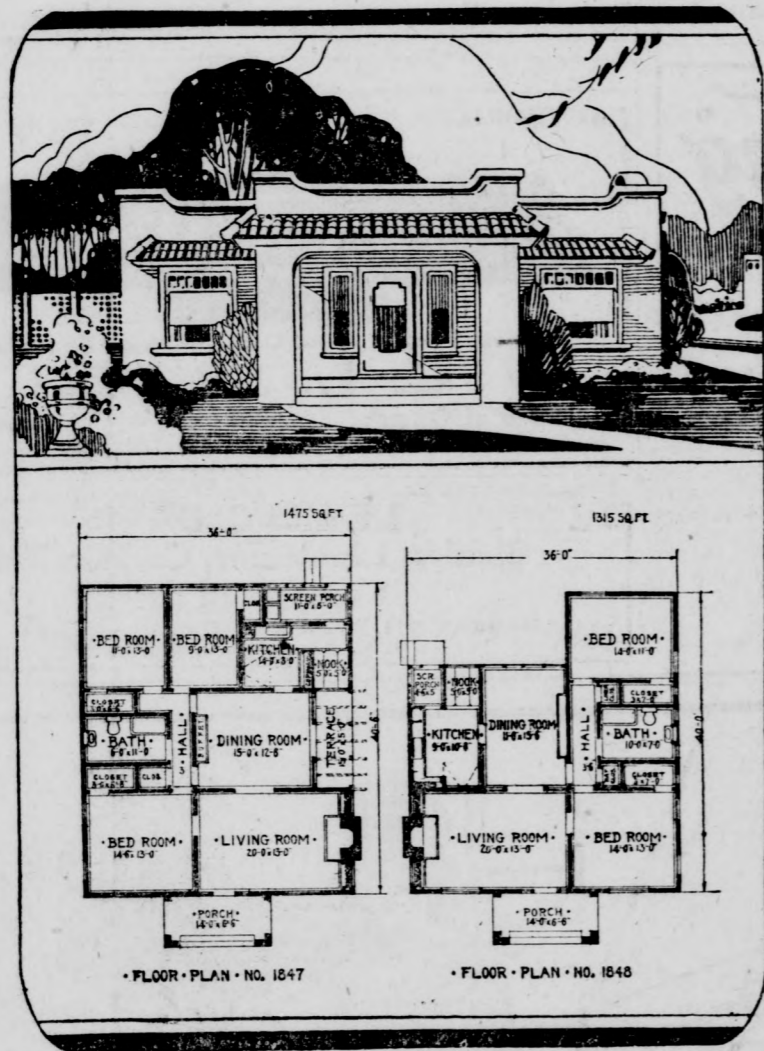

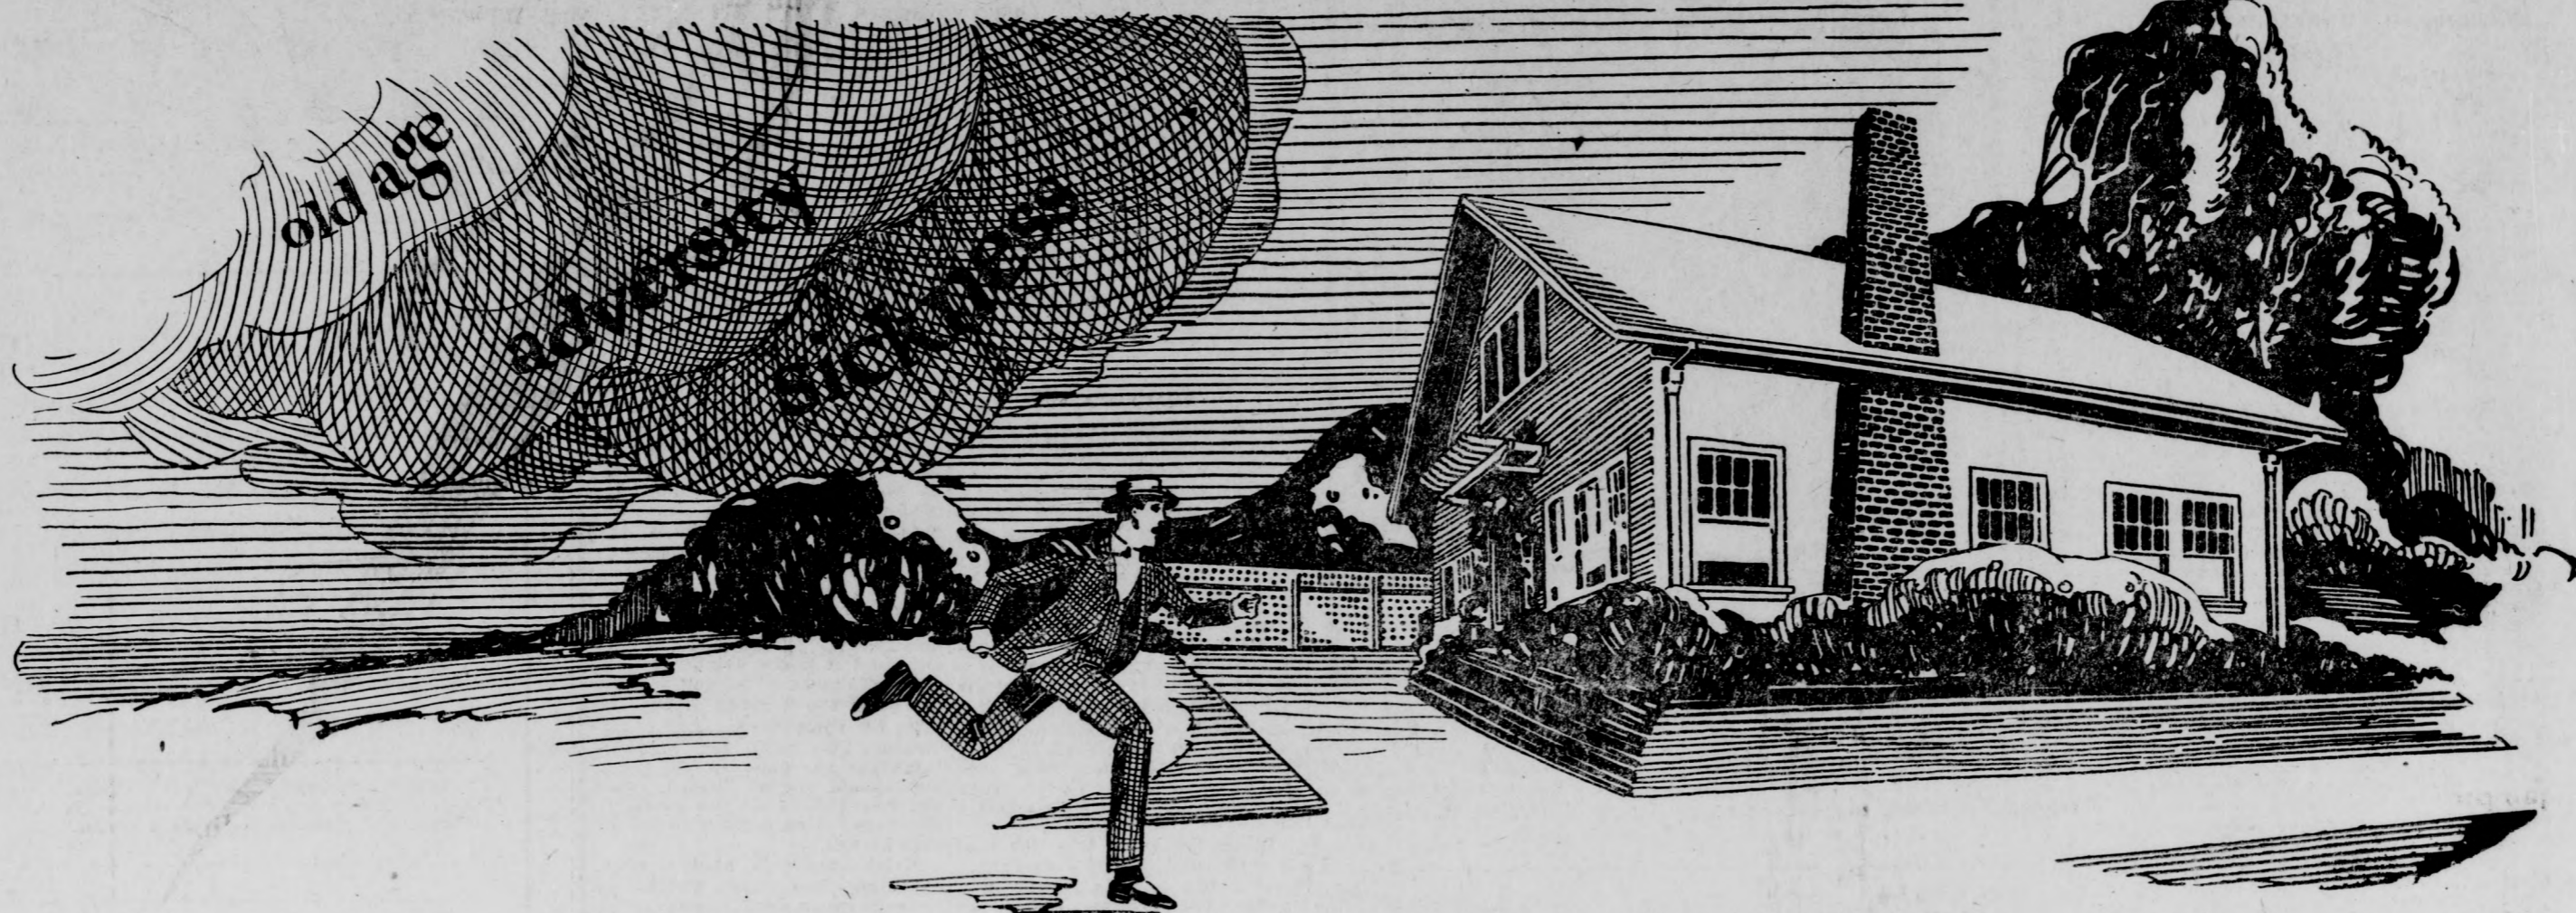

Our new building, the latest type, affords an abundance of light and air and is absolutely sanitary in every respect. A hand-work department is maintained, where all silk, wool, lace and delicate articles are laundered by hand. We have another new and special feature, which is the complete ironing of the family wash. All of our work is guaranteed to give absolute satisfaction—a service with which you will be pleased—at a price which we assure you, is very reasonable.

A phone call will bring our salesmen who will take pleasure in explaining our service to you in detail. We solicit your patronage on the quality and service we render.

Home - the Haven of Refuge.

Plan No. 1847-1848

Because of the Distinctiveness of this modern home plan and its ideal room arrangements, it cannot help but make its appeal to those who are contemplating building.

There is just enough tile featured, to make the home attractive, and the large porch columns gives the exterior a substantial appearance.

The alternate floor plans offer a selection of room arrangements that will surely care for the requirements of the average home builder.

Any additional information desired regarding this home will be furnished by writing the "Home Building Editor."

The real enemies of man are few, but they are exceedingly powerful. Some of them may be avoided, others held off indefinitely; but what man is ever seeking is a refuge from those adverse circumstances and conditions which may arise in every life and which, if not adequately insured against, may bring disaster with them.

Out on the prairies of the Middle West a scene such as the artist has depicted is often met with. The clouds arise and begin to threaten ominously. Man immediately recognizes the danger in the gathering storm and flees for safety. The house toward which he runs may be carried away by the tempest, but it contains a "cyclone cellar," which, if he can only reach it, will afford security for himself and loved ones until the danger has passed.

And so in life man perceives a storm coming his way. The clouds spell SICKNESS, which may overtake even the strongest; or ADVERSITY, which often strikes on little notice of its approach; or OLD AGE, toward which we are all hastening, and yet most of us fear to meet.

Man may flee to the "cyclone cellar" out in the Middle West; but what refuge can he find when the storms of life lower and threaten to overwhelm. This man has found the solution which too many have missed. He is fleeing toward HOME, THE HAVEN OF REFUGE, which is ample and safe.

Home Ownership is the best insurance against sickness, adversity and old age that man has yet devised. It gives him the sense of security and the reality of shelter when these dangers menace. But it does infinitely more than that. It gives him years of comfort and happiness before the sky becomes overclouded. In it the wife of his bosom and the children of their love live and pass golden hours. To it he goes when his day's labors are over with the knowledge that it is his. Business may belong to someone else, but his home is HIS—his and his loved ones.

Are you thus insured? Have you such a sure shelter as this ready when the storms of life beat upon you? If you have an income sufficient to pay rent you can own your home—either buy it, or, preferably, build it. And make it all you would have it to be, with flowers and a few fruit trees and welcome shade and fitted with every convenience which makes life worth living.

If you have a lot somewhere, the rest is so easy that it needn't trouble you. If you haven't, you should get busy at once and provide a place where YOUR OWN HOME can stand in the not far distant future.

There are many friends of yours in this city who will be glad to help you put yourself in the home-owner class. They are paying their money to make this series possible, in order that you may be convinced of the desirability of building your home. They have retained the advice of experts who are competent and anxious to give you valuable information which will aid you to become independent. Address all inquiries to the "Home Building Editor," care of this paper.

The Great Triumph of These Two Favorite Stars

ONCE OWNER, IS ALWAYS BOOSTER

Many Trade In Nash Cars, Which Are Thoroughly Overhauled, Word

"Once a Nash owner, always a booster." That seems to be the slogan of many owners of Nash cars, according to E. B. Sutton, of the Glendale Nash Sales, 112 South Maryland.

It is not uncommon for a Nash owner to come in after giving his former Nash hard service, order another one, and give his first car in trade, it is announced.

When a car is brought in under those circumstances, and is to be placed on the market as a used Nash car, it goes to the shop and expert mechanics are put on the job with instructions to put in new parts where needed and see that the car is in first-class shape.

"That enables us to sell our used cars on a ninety-day service plan, for we know they will stand up," says Mr. Sutton.

So much for the used Nash cars. Now for a story of a Nash playing the part of good samaritan.

From Oakland comes the story of how a Nash 691 recently played such a role. J. C. Dorman, the owner, while touring with Mrs. Dorman in the Yosemite valley, came across friends whose car (that of another make) was stalled because of clutch trouble.

It was imperative that the stranded ones, because of business appointments, reach San Francisco promptly.

Mr. Dorman hooked the stranded car to his Nash with a towing

Four Big Questions at Near East Meet

PARIS, Sept. 23.—Premier Poincare met with the French cabinet today to approve the Turkish note drawn up by the delegates of England, France, Italy and Jugo-Slavia inviting Turkey to a peace conference.

The note pledges Turkish sovereignty over Constantinople and Eastern Thrace but specifies that the Turkish straits must be internationalized, or made neutral for the commerce of all powers. This means that the Turks get a foothold in Europe but they will not be allowed to fortify the Dardanelles and hold it as strictly Turkish as they did before the great war.

The final meeting of Premier Poincare, Lord Curzon, British foreign secretary, and Count Sforza, Italian ambassador to France, was scheduled for 2 o'clock at the foreign office. There were four questions at stake:

1—Will the British consent to withdraw from Chanak on the Asiatic side of the Dardanelles, which they have refused to do up to date?

2—Will the British sign the Franco-Italian note to the Turks or insist upon sending a separate invitation to the same conference?

3—Will Britain consent to give Kemal formal assurances of all that section of Thrace lying as far as the Maritza river and including the city of Adrianople?

4—Can the powers agree upon a formula for the freedom of the Turkish straits, Dardanelles, Sea of Marmora and Bosphorus?

cable and towed them into Merced, a distance of 81 miles over mountain roads and bad grades. The Nash came through this gruelling test without trouble of any kind, it is reported.

SEWAGE QUESTION IS DISCUSSED BY KIWANIS CLUB

Connection With Proposed Los Angeles Plant Is Under Consideration

(Continued) pliments upon the part of guests present. As usual, C. D. Thom, of 131 South Brand boulevard, and Mayor Spencer Robinson sat at opposite ends of the table and acted as end men for the occasion.

The attendance prize was won by J. H. Wittmeyer, of 201 East Broadway. President Lyman P. Clark wielded the gavel.

The courses at the night school, which opens Monday, were commented upon by A. L. Ferguson, chairman of the educational committee.

An assessment against each member was made in behalf of boys who have arrived recently in the families of Don H. Webb and E. P. Hayward.

Present at Meeting

Besides those mentioned already, the Brand boulevard, and Mayor Spencer Robinson sat at opposite ends of the table and acted as end men for the occasion.

VAUDEVILLE AND FEATURE PICTURE

Big Time Acts and Marie Prevost Offer Program at Glendale Tonight

Marie Prevost in "Kissed" is the film attraction at the Glendale theatre today.

There are two big feature acts included on the vaudeville bill. The first of these is Adolpho, announced as "Piano Accordionist." He is a distinctive musician and his selections are the kind that never fail to register. The second feature is Vardell Brothers, offering a sensational acrobatic novelty.

Other acts will include the Roman Gypsies presenting "Pastimes in a Gypsy Camp," for which they carry their own special scenery. This is novel and full of entertainment value. Viggo and Dorothy are "The Two In One Steppers." Cooper and Valli will provide a bunch of real laughs with "Ain't She Rough?"

Another of Viola Dana's delightful photodramas will be presented at the Glendale theatre commencing Sunday, when "The Match Breaker," adapted from the story of Meta White, is shown.

Jeanette McLennan Returns From East

Miss Jeannette McLennan, daughter of Mrs. T. W. Preston of 330 North Jackson street, has returned from a very pleasant three months' tour of the east, during which she visited relatives and friends in Wisconsin, Illinois, Boston and Brookline, Mass., and New Hampshire. While in Chicago, Illinois, Miss McLennan took some special instruction in folk dancing and other lines in connection with her work as instructor in physical training. She will teach this year at St. Catherine's school on West Adams street, Los Angeles.

Miss McLennan greatly enjoyed her trip, which was her first visit east in ten years. She found the country very beautiful in Massachusetts and New Hampshire, where they have been having abundant rains this summer.

PLAN PARTIES AT FASHION REVIEW

Large Number of People to Attend Club Benefit at Glendale on Tuesday

The style show to be given at the Glendale theatre on September 26, in addition to its lure of the new in fall apparel as decreed by Dame Fashion, promises to be an outstanding social event of the fall season, marking as it will the beginning of activities after the summer's vacation. Members and friends of the Tuesday Afternoon Club are looking forward with interest to the fashion review to be held at the Glendale theatre the afternoon and evening of September 26.

Mrs. E. C. Pendroy, who is staging this large affair especially for the benefit of the Tuesday Afternoon club building fund, has secured some most attractive professional models from Los Angeles who will display the creations which she brought from New York for this event, as well as some imported gowns. Mrs. Pendroy is also furnishing a program of music and dancing between the display numbers. The theater and orchestra is being furnished by William A. Howe of the Glendale theatre.

Plan Many Parties

Many parties are being arranged not only by members of the club but also by out-of-town people who will attend the evening performance. Club members who have reserved seats for themselves and friends include Mr. and Mrs. Daniel Campbell and party of four, Mr. and Mrs. A. H. Montgomery and party of five, Mr. and Mrs. W. E. Evans and party of ten, Mr. and Mrs. John Robert White and party of five, Mr. and Mrs. Frank Ayers and party of five, Mr. and Mrs. Warren Roberts and party of six, Mr. and Mrs. Owen Emery and party of four, Mr. and Mrs. Roy L. Kent and party of four, Mr. and Mrs. Alfred Priest and party, Mr. and Mrs. Clinton Booth and party of five, Mr. and Mrs. Mattison B. and party of four, Mr. and Mrs. A. W. Beaman and party of three, Mr. and Mrs. W. H. Verity and party of four, Mr. and Mrs. Bert Woodard and party, Mrs. Mabel Franklin Ocker and party, Mrs. Cameron Thom and party of three. Out-of-town parties include Mr. and Mrs. J. E. Ransford and party of four, W. A. Innes of Los Angeles and party of four, Mrs. John Knudson of Los Angeles and party of four, Mr. and Mrs. Harold Brennan of San Pedro and party of five, Frank Casey of Los Angeles and party of four, Mrs. Ruby Rubenthal of Los Angeles and party of two and Mrs. H. A. Curtis of Glendale and party of three.

The first dress rehearsal for the style show will be held last night. The members of the Tuesday Afternoon club, of which Mrs. A. H. Montgomery is chairman, the Glendale theatre and Mrs. E. C. Pendroy are making reservations for those wishing to attend.

Attorney - General Will 'Go on Rack'

WASHINGTON, Sept. 23.—Attorney-General H. M. Daugherty will be "put on the rack" in the November session of congress as a cabinet officer seldom has been before, his opponents declared today as congress melted away for a two months' rest.

The attorney-general will be attacked on three fronts as soon as congress re-assembles (1) through the impeachment proceedings brought by Representative Kelier, Republican of Minnesota; (2) a proposed investigation of his alleged failure to prosecute war frauds, sponsored by Representative Roy O. Woodruff, of Michigan, Republican; and (3) the labor and "liberal" element in congress will seek his scalp for the famous Chicago injunction against the rail strikers.

Senator Robert M. LaFollette, Republican of Wisconsin, asserted today that the campaign against Daugherty will not be allowed to die during the two months' recess of congress.

"When Attorney-General Daugherty secured an injunction from Judge Wilkerson to prevent working men from exercising their constitutional rights of peaceful assembly, freedom of speech and lawful use of their property, he used his high position and the great powers of a free government to illegally oppress American citizens," said LaFollette.

"We are not through with Mr. Daugherty," the fiery Wisconsin senator added, as he paused momentarily in his preparations to catch the next train "back home," where he is to renew his fight for the election in November of the entire LaFollette ticket.

CITY COUNCILMAN SAM DAVIS IN TRAIN WRECK

Municipal Official Escapes Injury; Engineer and Fireman Killed

(Continued) and Fireman Patrick J. Feeley, Santa Paula-Oxnard local No. 38, are dead today as a result of the collision of the two trains six miles south of Ventura last night.

Fireman James H. Phillips of train No. 78 was the most seriously injured of the thirty-three, his injuries consisting of a broken leg, broken shoulder and internal injuries.

The impact of the collision was so great that telegraph wires along the track were torn up for some distance and communication from the scene of the wreck was still somewhat impaired today.

The two locomotives were completely demolished. The engine of the limited hurtled down the tracks for about 100 yards into a ditch while the engine of the local crumpled up at the side of the right of way.

Make Investigation

A hurried investigation by Southern Pacific officials immediately after the crash attributed the accident to a heavy fog. However, the shore line limited was a few minutes late leaving here because of engine trouble and the crash occurred on the "Y" near here from which the local was just pulling off when the speeding limited crashed into it.

A feature of the accident was the miraculous escapes from death of Baggageman Malloy and Engineer Barto of the local train. A steel rail was wrapped around the baggage car and for a time it was thought that Malloy was dead, but he managed to cut himself to safety. Engineer Barto was thrown clear of the cab for several feet.

On the limited train were a number of postmasters from various parts of the United States.

C. OF C. WILL AID SCOUT TROOP NO. 3

Hold Meeting at Central School; Frank C. Ayers Resigns Position

At a meeting held last night at Central avenue school the Glendale Chamber of Commerce officially went on record as sponsors for Troop No. 3 of the local council, Boy Scouts of America. The big problem confronting the troop is that of securing a scoutmaster, as Frank C. Ayers, who has been scoutmaster for the past year, has been compelled to give up active work with the troop. The chamber will endeavor to secure a leader and the new troop committeemen will make a report on that matter on next Friday night. It is also hoped to secure one or more assistant scoutmasters.

The meeting last night was a joint meeting of the new troop committeemen and the scouts, of whom there are about twenty. The new committee consists of the following: E. F. Sanders, George B. Carr, Charles B. Elliott and Frank C. Ayers.

Visit Doug's Studio

A real treat was prepared for the Boy Scouts of Southern California for this afternoon. The Santa Monica district is putting on a campaign for funds. A big mass meeting is being held in the interests of the campaign.

A program of speaking has been arranged, and the scouts are giving demonstrations in scoutcraft.

However, the big affair as far as the scouts are concerned is the fact they are making to the Douglas Fairbank's studio to see the filming of the final scenes of "Robin Hood." After visiting the studio they were to attend the big mass meeting.

The local scouts who attended the Older Boys' conference at the state fair are to be the official representatives from the Verdugo Hills district council. They are Robert Eastman, Clifford Walcott and Dallas Kalbaugh.

LEAVES FOR CONVENTION

C. A. Redmond, local agent of the Union Pacific agent, left Thursday with the special from southern California to the National G. A. R. convention in Des Moines, Ia. The Southern California train will join with a Northern California special and go on to Iowa. Mr. Redmond expects to be away two weeks and the real pleasure of the trip for him will be a visit with his mother in North Platt, Neb.

A success is a man who has gone a little way but is anxious to go further.

POLITICAL ADVERTISEMENT

Randall for Congress Club to Be Formed

All voters of Glendale who are interested in returning Randall to congress in the interest of Progressive legislation are urged to be present on Monday evening, 7:30, at the residence of Samuel Dick, 309 North Louise street. W. F. TOWER.

Mrs. R. E. Downing Hostess to Chapter

Mrs. R. E. Downing of 206 1/2 Hawthorne street was hostess yesterday at an informal social afternoon and get-together of the members of Chapter BA, P. E. O., as a preliminary to the opening of the fall season of the chapter, which begins on October 6. Several of the members have had delightful trips during the summer and related many interesting experiences about them.

Those present included Mrs. Edith Arnold, Mrs. Nelle Ayars, Mrs. Josephine Brant, Mrs. Elizabeth Brown, Mrs. Nellie Case, Mrs. Douglas Chase, Mrs. Fern Clark, Mrs. Beryl Cross, Mrs. Minnie Fox, Mrs. Laura Kille, Mrs. Carol Kolls, Mrs. Ida Noble, Mrs. Kate Parker, Mrs. Mabel Parker, Mrs. Effie Preston, Mrs. Pauline Russell, Mrs. Hallie Stamps, Mrs. Eleanor Toll, Mrs. Kate Williams, Mrs. Florence Wintersgill and Miss Dorothy Williams.

BUSINESS GROWTH AT NEW LAUNDRY

Glendale Industry Secures Many New Customers, Is Management's Report

Monday will mark the beginning of the second month of service by the new Premier laundry, a Glendale industry, located on the south side of Verdugo wash, just west of Pacific avenue. Housewives of Glendale already have come to know its being here, as evidence the constantly-increasing business.

The manager, Harry Bechtold, is a laundry man of experience, and F. A. Marek, former city building superintendent, is the principal stockholder in the corporation. Mr. Bechtold during the war had charge of installation of training camp laundries on the coast and his experience has served him well in the work here, having perfected the service to a high degree within the last thirty days.

Light, ventilation and cleanliness are three features a visitor finds at the Premier laundry where a capable crew of men and women tackle the big job of community washing. The spacious building of frame, with its concrete floors, is 60x120 feet. It is estimated that 50 people may be employed in this plant as business requires.

The washing department contains nine large American laundry washing machines, each about 21 times the size of a family washer. Five extracting machines force the water from the wet garments by centrifugal motion. In the drying room a temperature of 340 degrees is maintained, the heat coming from a complete steam hot-water plant.

Mr. Bechtold points out that the rough dry department is prepared to make a specialty of family work and he solicits new accounts from those who wish to escape the drudgery of washing. The plant is equipped with a refinite water softening system which neutralizes the water and eliminates the use of strong caustics.

Did Church Women Plan Double Crime?

NEW BRUNSWICK, N. J., Sept. 23.—A theory that the double murder of the Rev. Edward Wheeler Hall, wealthy rector of the fashionable Protestant Episcopal Church of St. John the Evangelist and his choir leader, Mrs. James Mills, was planned and executed by church women was engaging the full attention of the Somerset county officials today.

The activities of three locally prominent women—two of them married—on the night of the murder are being investigated. All are members of the congregation of the slain pastor's church. It is known that there was a jealous feud among these women and it is declared that feeling had reached such a high pitch that "anything was possible."

Display In Pendroy's Windows Attractive

Beautiful autumn ready-to-wear is featured in the Pendroy department store windows this week-end. It is somewhat of a preview of the Fall Fashion show, to be staged at the Glendale Theatre soon for the benefit of the Tuesday Afternoon club.

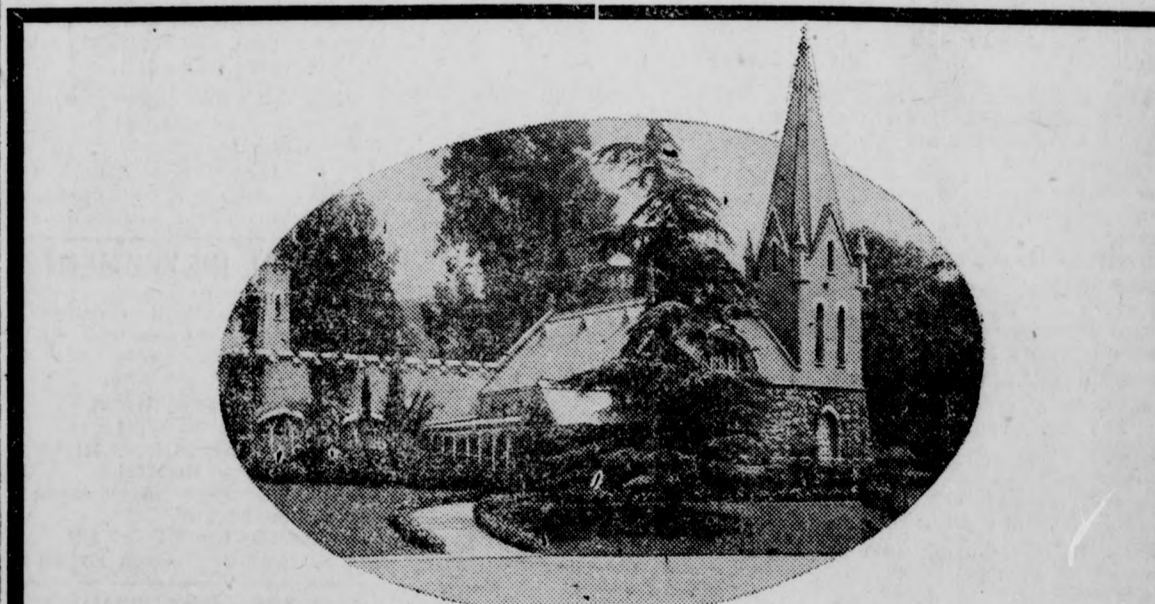

Those who love to go window shopping certainly will appreciate the array presented by Pendroy's, which is the artistic work of Dale Ludwig. The cloaks, suits, and dresses shown are the latest selections from New York, personally obtained by Mrs. E. C. Pendroy.

The second floor of the big store is crowded with the new arrivals for midday.

Miss Pearl Pollock In Second Operation

Miss Pearl Pollock, daughter of Mr. and Mrs. J. C. Pollock of 118 Arden avenue, underwent a second operation for appendicitis Thursday evening at the Glendale Sanitarium and Hospital. She is reported improving.

Few men appreciate the joy of having work to do until they get out of a job.

Your Duty---And Your Highest Privilege

To consider the purchase of a cemetery lot today is to act sanely and wisely; to purchase in "Beautiful Forest Lawn" is to exercise extreme wisdom. We have all witnessed the distress of relatives distracted by sorrow, forced to buy a lot when they could least afford it, and sorry they had not purchased at a better time. Great peace of mind is afforded by the thought that when necessity arrives, as it must, a plot in "Beautiful Forest Lawn" has been wisely provided in advance of actual need.

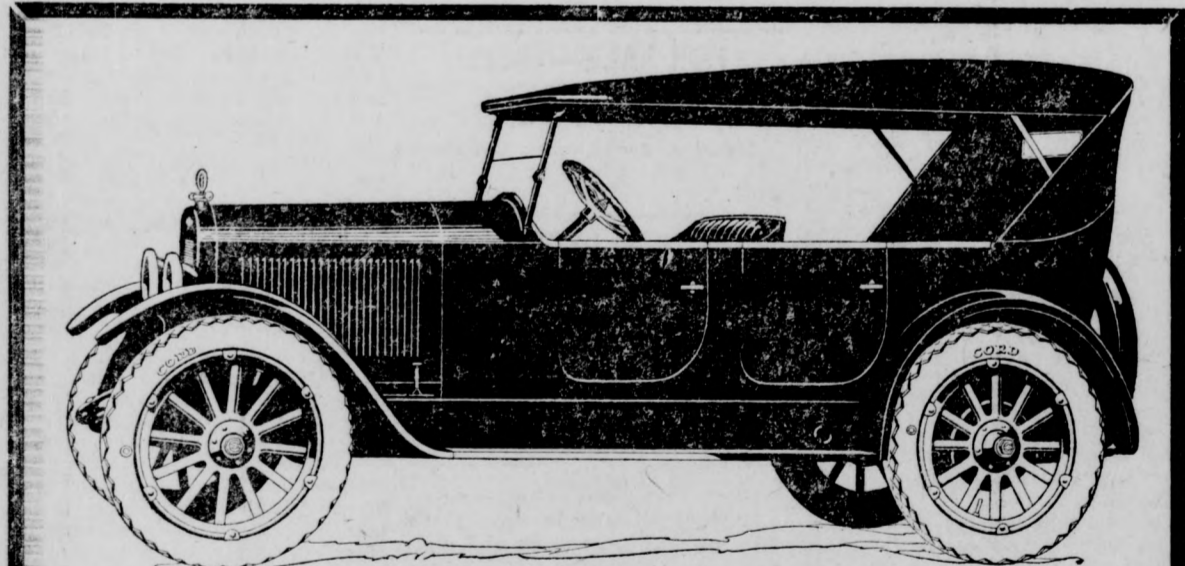

AS AN INVESTMENT and economical measure, few purchases yield as high return in dollars and cents, as well as in satisfaction. In a MEMORIAL park of the highest type with PERPETUAL CARE, such as "Beautiful Forest Lawn" offers, a lot increases in value from year to year. "Putting it off" only adds to the inevitable expense.

A visit to "Beautiful Forest Lawn" will amply repay you. Then, and only then, will you realize that here is California's most beautiful park. So calm and serene that all sense of mortality is lost in the peacefulness and beauty of the place.

Everything that art, science and loving care can devise has been planned for different forms of burial—be it earth burial, mausoleum crypt, cremation, columbarium niche or private vault.
